## **Smiths Gazelle:**

**Smith's Gazelle** Lionel Davidson,1974      **Eben Smith** David Forsyth,2021-09-21 David Forsyth recounts the life of Eben Smith an integral but little known figure in Colorado mining history Smith was one of the many fortune seekers who traveled to California during the gold rush and one of the few who found what he sought He moved to Colorado in 1860 with business partner Jerome Chaffee and over the next forty six years was involved in mining in nearly every major camp in the state from Central City to Cripple Creek and in the development of mines such as the Bobtail Little Jonny and Victor He was eulogized by the Denver Post and Denver Times as the dean of mining in Colorado The mining teams Smith formed with Chaffee and with industrialist David Moffat were among the most successful and respected in Colorado and many in the state held Smith in high regard Yet despite the credit he received during his lifetime for establishing Colorado s mining industry Smith has not received much attention from historians perhaps because he was content to leave public facing duties to his partners while he concerned himself with managing mine operations From Smith s early years and his labor in the mines to his rise to prominence as an investor and developer Forsyth shows how Smith used the mining and milling knowledge he acquired in California to become a leader in technological innovation in Colorado s mining industry      Holstein Herd-book

Christel Fricke,Dagfinn Føllesdal,2013-05-02 Can we have objective knowledge of the world Can we understand what is morally right or wrong Yes to some extent This is the answer given by Adam Smith and Edmund Husserl Both rejected David Hume s skeptical account of what we can hope to understand But they held his empirical method in high regard inquiring into the way we perceive and emotionally experience the world into the nature and function of human empathy and sympathy and the role of the imagination in processes of intersubjective understanding The challenge is to overcome the natural constraints of perceptual and emotional experience and reach an agreement that is informed by the facts in the world and the nature of morality This collection of philosophical essays addresses an audience of Smith and Husserl scholars as well as

everybody interested in theories of objective knowledge and proper morality which are informed by the way we perceive and think and communicate Machinists and Blacksmiths International Journal ,1870 **Dr. W.
