Competencies of Managers and Service Excellence in Military Hospitals Professor Emeritus Dr Syed Mohamed Aljunid, Dr Junaidah Kamarruddin, 2023-06-06 Excellence in service is needed in the Military Hospitals in Malaysia to ensure the best and the most effective services are delivered. One of the factors that contribute to the provision of excellent services is the presence of competent managers. In this book we report the outcome of a study aimed to determine the level of service excellence among managers and the factors influencing it in five Military Hospitals under the Ministry of Defence Malaysia. A cross sectional study was conducted using self-administered questionnaires distributed to Military and Non Military managers with different demographic backgrounds and service characteristics. The questionnaires consist of six components: the background of the respondents, the level of service excellence, skills knowledge of the Blue Ocean Strategy (BOS), leadership style, and organisational compliance. By using the Structural Equation Model, findings of the study showed that all independent variables, i.e. skills knowledge on BOS, leadership style, and organisational compliance, are significantly related to service excellence. Using Stepwise Multiple Linear Regression, it was discovered that managers in the lower grades as well as Non Military managers demonstrated significant service excellence. In conclusion, the service excellence of managers in Military Hospitals is strongly influenced by their competencies. Military Hospitals administration should focus into the needs for training and suitable courses for Military managers in senior position to enhance their competencies. **The Excellent Manager's Companion** Philip Holden, 1998 With *The Excellent Manager's Companion* in your desk drawer you will be equipped with succinct guidance on today's most talked about business issues. The Principal's Companion Pam Robbins, Harvey B. Alvy, 2003 This book adds extremely relevant knowledge and skills for innovative reformers and for more traditional leaders alike. It provides a solid set of interesting and shrewd suggestions that can be used immediately by practising principals. From the Foreword by Kent D. Peterson, Professor, Department of Educational Administration, University of Wisconsin-Madison: Despite the administrative leadership training that most principals receive in university courses, their most useful learning doesn't occur until they are on the job. And the new knowledge, much of it the result of trial and error, success and failure is gained in relative isolation simply because there is no one else at that responsibility level within the school. Pam Robbins, an educational consultant, and Harvey B. Alvy, a practicing principal, offer a well-organized interactive manual for the role of principal. They have worked with hundreds of schools, educators, and other organizations around the world collecting data that form the basis for *The Principal's Companion*. This

easy to read book combines the most helpful tried and true strategies with the most relevant leadership research and theory The authors discuss creative leadership and necessary skills the wide variety of roles played by principals how to create a learning community personal and professional issues and much more Quotes from practicing principals are included throughout the book and readers are encouraged to jot down their own reflections about each chapter theme The Principal s Companion is a rare opportunity to collaborate with other principals an excellent professional resource that will be referred to again and again Ideal for practicing and aspiring principals it is also highly useful as a text for administration courses
