Westwick, 2020 The story behind the technology that revolutionized both aeronautics and the course of history On a moonless night in January 1991 a dozen airplanes appeared in the skies over Baghdad Or rather didn't appear They arrived in the dark their black outlines cloaking them from sight More importantly their odd angular shapes which made them look like flying origami rendered them undetectable to Iraq's formidable air defenses Stealth technology developed during the decades before Desert Storm had arrived To American planners and strategists at the outset of the Cold War this seemingly ultimate way to gain ascendance over the USSR was only a question What if the United States could defend its airspace while at the same time send a plane through Soviet skies undetected A craft with such capacity would have to be essentially invisible to radar an apparently miraculous feat of physics and engineering In *Stealth* Peter Westwick unveils the process by which the impossible was achieved At heart *Stealth* is a tale of two aerospace companies Lockheed and Northrop and their fierce competition with each other and with themselves to obtain what was estimated one of the largest procurement contracts in history Westwick's book fully explores the individual and collective ingenuity and determination required to make these planes and in the process provides a fresh view of the period leading up to the end of the Soviet Union Taking into account the role of technology as well as the art and science of physics and engineering Westwick offers an engaging narrative one that immerses readers in the race to produce a weapon that some thought might save the world and which certainly changed it      Ideaflow Jeremy Utley, Perry Klebahn, 2022-10-25 Teams succeed to the degree that there is a free flow of ideas Read this book to learn how to bring out the best in others and in yourself Scott Galloway bestselling author of *The Four* and *Post Corona* *Ideaflow* the number of ideas you or your team can generate in a set amount of time We all want
