Post-Tribulation and the Two Beasts of Revelation Wayne Grant,2021-01-29 The seven year Tribulation is a time much spoken of in the Scriptures and is the focal point of Jesus Olivet Discourse As we are coping with pandemic and global warming many believe we are at the last hour before the end of the age God made the sun to rule the day but the moon and the stars to rule the night Jesus said the night is coming when no man can work This night period is the final week of Daniels 70 week prophesy in Daniel 9 24 The church needs a clear picture of what Jesus says is going to happen in this period Christ is the light of the world As we follow Him we too can lead many to righteousness This book is about being on the alert so that when the master comes we may hear the words well done good and faithful servant This book hopefully will offer some guidelines for our watch

McGhee, Jr.,2019-10-15 An analysis of patterns of convergent evolution on Earth that suggests where we might look for similar convergent forms on other planets Why does a sea lily look like a palm tree And why is a sea lily called a lily when it is a marine animal and not a plant Many marine animals bear a noticeable similarity in form to land dwelling plants And yet these marine animal forms evolved in the oceans first land plants independently and convergently evolved similar forms much later in geologic time In this book George McGhee analyzes patterns of convergent evolution on Earth and argues that these patterns offer lessons for the search for life elsewhere in the universe Our Earth is a water world 71 percent of the earth s surface is covered by water The fossil record shows that multicellular life on dry land is a new phenomenon for the vast majority of the earth s history 3 500 million years of its 4 560 million years of existence complex life existed only in the oceans Explaining that convergent biological evolution occurs because of limited evolutionary pathways McGhee examines examples of convergent evolution in forms of feeding immobility and mobility defense and organ systems McGhee suggests that the patterns of convergent evolution that we see in our own water world indicate the potential for similar convergent forms in other water worlds We should search for extraterrestrial life on water worlds and for technological life on water worlds with continental landmasses **The Great Bear Almanac** Gary Brown,1993 A complete factual compendium of knowledge about bears presented in words pictures maps and charts Astronomy ,1997
