Hopper, 2015-01-01 Matthew S Hopper s wide ranging history of the African diaspora and slavery in Arabia in the nineteenth and early twentieth centuries examines the interconnected themes of enslavement globalization and empire and challenges previously held conventions regarding Middle Eastern slavery and British imperialism Linking the personal stories of enslaved Africans to the impersonal global commodity chains their labor enabled this provocative and deeply researched study contradicts the conventional historiography that regards the Indian Ocean slave trade as fundamentally different from its Atlantic counterpart and disputes the triumphalist antislavery narrative that attributes the end of the East African Persian Gulf slave trade to the efforts of the British Royal Navy **Masters & Slaves in the House of the Lord** John B. Boles, 1988-01-01 Much that is commonly accepted about slavery and religion in the Old South is challenged in this significant book The eight essays included here show that throughout the antebellum period southern whites and blacks worshipped together heard the same sermons took communion and were baptized together were subject to the same church discipline and were buried in the same cemeteries What was the black perception of white controlled religious ceremonies How did whites reconcile their faith with their racism Why did freedmen as soon as possible after the Civil War withdraw from the biracial churches and establish black denominations This book is essential reading for historians of religion the South and the Afro American experience **A Slave's Place, A Master's World** Nancy Priscilla Naro, 2016-10-06 A Slave s Place A Master s World based on original field research evaluates the transition from slave to free labour in rural Brazil highlighting the ways in which slaves free farmers freedmen and planters shaped the labour markets of an agrarian economy Documentation from two areas in the Rio de Janeiro hinterland provides the foundation for comparisons between slavery in

Slavery, Southern Culture, and Education in Little Dixie, Missouri, 1820-1860 Jeffrey C.

Stone,2013-09-13 This dissertation examines the cultural and educational history of central Missouri between 1820 and 1860

and in particular the issue of master slave relationships and how they affected education broadly defined as the transmission of Southern culture Although Missouri had one of the lowest slave populations during the Antebellum period Central Missouri or what became known as Little Dixie had slave percentages that rivaled many regions and counties of the Deep South However slaves and slave owners interacted on a regular basis which affected cultural transmission in the areas of religion work and community Generally slave owners in Little Dixie showed a pattern of paternalism in all these areas but the slaves did not always accept their masters paternalism and attempted to forge a life of their own

Dark Symbols, Obscure Signs Riggins R. Earl, 2025-10-22 In *Dark Symbols Obscure Signs* Riggins R. Earl Jr investigates how slave owners intentionally manipulated Christianity as they passed it on to slaves and demonstrates how slaves successfully challenged that distorted interpretation Analyzing slaves response to Christianity as expressed in testimonies songs stories and sermons Earl reveals the conversion experience as the initial step toward an autonomy that defied white control Contrary to what their white owners expected or desired enslaved African Americans found in Christianity a life affirming identity and strong sense of community Slave owners believed Christianity would instill docility and obedience but the slaves discovered in the Bible a different message sharing among themselves the dark symbols and obscure signs that escaped the notice of their captors Finding a sense of liberation rather than submission in their conversion experience slaves discovered their own self worth and their values as children of God Originally published in 1993 *Dark Symbols Obscure Signs* traces the legacy of slaves embrace of Christianity both during and after the slavery era In a new introduction the author places the book within the context of contemporary scholarship on the roots of the African American cultural experience He argues that any interpretation of this experience must begin with a foundational study of the theological and ethical constructs that have shaped the way blacks understand themselves in relationship to God their oppressors and each other

The Complete Concise History of the Slave Trade Olayanju Olajide, 2013 This book is written mainly from my experience since my arrival in the United Kingdom in the early 1960s I came to the UK before I came in contact with any Afro American or Caribbean In Nigeria I know some people whose parents originally returned to Nigeria from Brazil and Cuba The names of these great people are household names in Nigeria and particularly in Lagos The more I stay in the UK the more I realise that our people from America and Caribbean have very little knowledge of Africa To my greatest surprise some of them think that Africa is a small country I came to the UK before the slave trade became a common topic It is quite clear from my observation that the history of the slave trade is wrongly taught in overseas as far as it concerns Africa Worse still some of our people here think that the whole of Africa was involved in the slave trade This book is to put forward the authentic history of the slave trade Moreover this book will show clearly the areas affected by the slave trade The aim of the writer of this book is to make the history of the slave trade clear and simple to read The idea is to make the book affordable and available as much as possible in order to study the history in Africa and overseas If the history of the slave trade is taught and studied carefully any such mistakes will be avoided in future

Slavery in Africa Suzanne Miers,Igor Kopytoff,1977 This collection of sixteen short papers together with a complex and very much longer introductory essay by the editors on African Slavery as an Institution of Marginality constitutes an impressive attempt by anthropologists and historians to explore describe and analyze some of the various kinds of human bondage within a number of precolonial African societies It is important to note that in spite of the precolonial emphasis of the volume all of the essays are based at least partly on anthropological or ethnohistorical field research carried out since 1959 All but one have been augmented greatly by more conventional historical research in published as well as archival sources And although the volume s focus is upon the structures and conditions of servitude within the several African societies described many of the essays illustrate and some discuss the conceptual as well as the practical difficulties of separating the institutions and customs of domestic African slavery from those of the European dominated commercial slave trade in which many of the societies participated from JSTOR <http://www.jstor.org> May 24 2013

Slavery, Civil War, and Salvation Daniel L. Fountain,2010-10 During the Civil War traditional history tells us Afro Christianity proved a strong force for slaves perseverance and hope of deliverance In *Slavery Civil War and Salvation* however Daniel Fountain raises the possibility that Afro Christianity played a less significant role within the antebellum slave community than most scholars currently assert Fountain presents a new timeline for the African American conversion experience insisting that only after emancipation and the fulfillment of the predicted Christian deliverance did African Americans more consistently turn to Christianity Freedom Fountain contends brought most former slaves into the Christian faith
