The Art Of Loving An Enquiry Into The Nature Of Love:

The Art of Loving Erich Fromm,1956 *The Art of Loving* Erich Fromm,2016-09-16 The Art of Loving is a book by psychoanalyst and social philosopher Erich Fromm which was published as part of the World Perspectives Series edited by Ruth Nanda Anshen In this work Fromm develops his perspective on human nature from his earlier work *Escape from Freedom* and *Man for Himself* principles which he revisits in many of his other major works Fromm presents love as a skill that can be taught and developed He rejects the idea of loving as something magical and mysterious that cannot be analyzed and explained and is therefore skeptical about popular ideas such as falling in love or being helpless in the face of love

Dialectical Readings Stephen N. Dunning,2010-11-01 **Dancing with Ophelia** Jeanne Ellen Petrolle,2017-11-21 A personal narrative that explores madness through the use of literature art and philosophy to achieve lasting mental health without drugs Twenty two years ago I lost my mind So begins Jeanne Ellen Petrolle s fascinating personal narrative about her mental illness and recovery Drawing on literature art and philosophy Petrolle explores a unique understanding of madness that allowed her to achieve lasting mental health without using long term psychiatric drugs Traditionally Western literature art and philosophy have portrayed madness through six concepts created from myth *Escape into the Wild* *Flight from a Scene of Terror* *Visit to the Underworld* *Dark Night of the Soul* *Spiritual Passion* and *Fire in the Mind* Rather than conceptualizing madness as illness a mythopoetic concept assumes that madness contains symbolic meaning and offers valuable insight into human concerns like love desire sex adventure work fate spirituality and God Madness becomes an experience that unleashes extraordinary creativity by generating the spiritual insight that fuels artistic productivity and personal transformation By weaving her personal experiences with the life stories and work of surrealist painter Leonora Carrington and modernist novelist Djuna Barnes Petrolle shows how poetic thinking about severe mental distress can complement strategies for managing mental illness This approach allowed her and hopefully others to produce better long term treatment outcomes This is an extraordinary book that combines meticulous literary scholarship with memoir It bravely challenges us to reconsider and reframe mental illness defined here as an ultimate adventure in selfhood that connects to beauty creativity and the sublime As it traces how skepticism of prevailing attitudes and treatments can save lives *Dancing with Ophelia* is also at its root a deeply spiritual book that grapples with love courage ambition and the idea of God Aviya Kushner author of *The Grammar of God A Journey into the Words and Worlds of the Bible* This book offers an interesting and engagingly written exploration of mental distress that draws on a range of literary and scholarly sources in combination with personal experience It sits within the small but growing body of work that interweaves personal narrative with an academic analysis of illness or disruption Deborah Bowman coauthor of *Informed Consent A Primer for Clinical Practice* *The Poetics of Tenderness* Robert Cantwell,2017-12-13 *The Poetics of Tenderness* a literary critical essay on love grounded in the developmental theory of the British psychoanalyst Donald Winnicott and shaped by recent work on the neurobiology and

anthropology of love It maintains that sexual love is not merely an artifact or invention of culture but a vital manifestation of the culture making power itself Calling upon Andreus Capellanus Plato Schopenhauer Freud William James Hardy Dreiser and Fitzgerald D H Lawrence and Tom Stoppard among others the book s aim is to turn the discussion of sexuality around to substitute for ideas and figures of violence and predation which have dominated our sexual imaginary for more than four decades much older and more durable associations of sex and love with care affection beauty memory worthiness and ideality It argues for a resurrection of tenderness and holds out the possibility that even where anything goes love may yet be a source of sweetness and light that mutual respect equity justice and decency in the spheres of sex and love will more likely flow from compassion and sympathy than from anger fear suspicion mistrust resentment and bitterness Close readings of two widely read novels Dickens Great Expectations and Nabokov s Lolita preside over the discussion exploring these authors distinctively detailed and probing accounts of love s unfolding in particular social cultural historical and psychological settings Both novels proceed from deep within the authors interior life both novels release love from its normally deep entanglements with intimacy and isolation compatibility and incompatibility social place and social possibility inspiring in their narrators a prolonged introspective inquiry into an all consuming preoccupation which ultimately restores them to the moral order

Love and Sexuality in Social Theory Emiliano Bevilacqua, Mariano Longo, Michael Hviid

Jacobsen, 2024-11-27 Love and Sexuality in Social Theory considers the role that love and sexuality play in private and public life Drawing on both classical and contemporary social theory this book presents both theoretical and empirical studies of love and sexuality as social factors from the earliest reconstructions of modern emotional life to the most recent analyses of liquid love With attention to the consequences that passions and desires have both on morals and behaviour it departs from the analysis of society in terms of the division of labour and utilitarian mechanisms to consider how a society based on performances values human energy and emotional behaviour in a contradictory way This book therefore presents and discusses classic authors from Georg Simmel and Pitirim Sorokin to Marianne Weber and Simone De Beauvoir through the work of Erving Goffman and ending with contemporary authors such as Michel Foucault Anthony Giddens Zygmunt Bauman Ulrich Beck and Eva Illouz By presenting love as the social foundation of altruism an essential element in modern conceptions of subjectivity and a force shaping intimacy and contemporary social life this book will appeal to scholars of sociology particularly those interested in social theory and the sociology of emotions

Sex on the Couch Richard

Boothby, 2014-05-01 At just the moment when many people are ready to throw Freud on to the ash heap of intellectual history Sex on the Couch rescues from Freud s theories a fascinating series of reflections on the nature of sexuality and gender Richard Boothby presents here a fresh and engaging view of Freud Sex on the Couch offers new insights into our concepts of masculinity and femininity placing them in relation to Freud s theory of the Life and Death drives Richard Boothby also engages feminist critiques of Freud putting forward new and specific responses to questions that have shaped contemporary

Judgments of Love in Criminal Justice Farhad Malekian, 2017-03-31 This volume is a new chapter in the future history of law Its general perspective could not be more original and its critical ethical edge on the state of international law could not be timelier It explores a compassionate philosophical approach to the genuine substance of law criminal procedure international criminal law and international criminal justice It divides law into three interrelated disciplines i e legality morality and love The norm love is derived from human reason for man's advancement and the securing of natural law It is more than a mere mandatory norm Its goal is to generate a normative and positive powerful result therefore avoiding any impurity that may exist in the application of other norms because of political or juridical pressures a one-eyed justice The norm love also renders justice with the principles of legal accountability transparency and the high moral authentic values of humanity The notion of justice cannot be trusted in the absence of the norm love The volume indicates the conditions of its efficiency by proving the reasons for its existence in the context of fairness objectivity and concern for all individuals and entities The concept of the norm love should be the core academic corpus for lecturing law in all faculties of law It is simply the enlightenment of the 21st century A lawyer with requisite knowledge and skill is not a lawyer if he cannot understand that the law does not need a lawyer with ethical competence in its provisions for income purposes but one with knowledge of its essence for the advanced morality of justice and the sheer essence of love for justice

Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In Love's Vision Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor

deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's Symposium love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature Love's Vision is an original examination of a subject of vital philosophical and human concern
