Golden Kingdoms Joanne Pillsbury, Timothy Potts, Kim N. Richter, 2017-09-26 This volume accompanies a major international loan exhibition featuring more than three hundred works of art many rarely or never before seen in the United States It traces the development of gold working and other luxury arts in the Americas from antiquity until the arrival of Europeans in the early sixteenth century Presenting spectacular works from recent excavations in Peru Colombia Panama Costa Rica Guatemala and Mexico this exhibition focuses on specific places and times crucibles of innovation where artistic exchange rivalry and creativity led to the production of some of the greatest works of art known from the ancient Americas The book and exhibition explore not only artistic practices but also the historical cultural social and political conditions in which luxury arts were produced and circulated alongside their religious meanings and ritual functions **Golden Kingdoms** creates new understandings of ancient American art through a thematic exploration of indigenous ideas of value and luxury Central to the book is the idea of the exchange of materials and ideas across regions and across time works of great value would often be transported over long distances or passed down over generations in both cases attracting new audiences and inspiring new artists The idea of exchange is at the intellectual heart of this volume researched and written by twenty scholars based in the United States and Latin America *Gold and Power in Ancient Costa Rica, Panama, and Colombia* Jeffrey Quilter, John W. Hoopes, 2003 The lands between Mesoamerica and the Central Andes are famed for the rich diversity of ancient cultures that inhabited them Throughout this vast region from about AD 700 until the sixteenth century Spanish invasion a rich and varied tradition of goldworking was practiced The amount of gold produced and worn by native inhabitants was so great that Columbus dubbed the last New World shores he sailed as Costa Rica the Rich Coast Despite the long recognized importance of the region in its contribution to Pre Columbian culture very few books are readily available especially in English on these lands of gold *Gold and Power in Ancient Costa Rica Panama and Colombia* now fills that gap with eleven articles by leading scholars in the field Issues of culture change the nature of chiefdom societies long distance trade and transport ideologies of value and the technologies of goldworking are covered in these essays as are the role of metals as expressions and materializations of spiritual political and economic power These topics are accompanied by new information on the role of stone statuary and lapidary work craft and trade specialization and many more topics including a reevaluation of the concept of the Intermediate Area Collectively the volume provides a new perspective on the prehistory of these lands and includes articles by Latin American scholars whose writings have rarely been published in English

Archaeology in Latin America Benjamin Alberti, Gustavo G. Politis, 2005-08-16 The first overview of current themes in Latin American archaeology written solely by archaeologists native to the region making their collected expertise available to

an English speaking audience for the first time *Philippe de Montebello and the Metropolitan Museum of Art* James R. Houghton, Metropolitan Museum of Art (New York, N.Y.), 2009 **A Day in a Working Life** Gary Westfahl, 2015-04-21 Ideal for high school and college students studying history through the everyday lives of men and women this book offers intriguing information about the jobs that people have held from ancient times to the 21st century This unique book provides detailed studies of more than 300 occupations as they were practiced in 21 historical time periods ranging from prehistory to the present day Each profession is examined in a compelling essay that is specifically written to inform readers about career choices in different times and cultures and is accompanied by a bibliography of additional sources of information sidebars that relate historical issues to present day concerns as well as related historical documents Readers of this work will learn what each profession entailed or entails on a daily basis how one gained entry to the vocation training methods and typical compensation levels for the job The book provides sufficient specific detail to convey a comprehensive understanding of the experiences benefits and downsides of a given profession Selected accompanying documents further bring history to life by offering honest testimonies from people who actually worked in these occupations or interacted with those in that field

Archaeometry of Pre-Columbian Sites and Artifacts David A. Scott, Pieter Meyers, 1994-10-27 Based on the 28th International Archaeometry Symposium jointly sponsored by the University of California Los Angeles and the Getty Conservation Institute this volume offers a rare opportunity to survey under a single cover a wide range of investigations concerning pre Columbian materials Twenty chapters detail research in five principal areas anthropology and materials science ceramics stone and obsidian metals and archaeological sites and dating Contributions include Heather Lechtman s investigation of The Materials Science of Material Culture Ron L Bishop on the compositional analysis of pre Columbian pottery from the Maya region Ellen Howe on the use of silver and lead from the Mantaro Valley in Peru and J Michael Elam and others on source identification and hydration dating of obsidian artifacts
