The

Founding Fathers and the Politics of Character Andrew S. Trees, 2021-07-13 The American Revolution swept away old certainties and forced revolutionaries to consider what it meant to be American Andrew Trees examines four attempts to answer the question of national identity that Americans faced in the wake of the Revolution Through the writings of Thomas Jefferson John Adams Alexander Hamilton and James Madison Trees explores a complicated political world in which boundaries between the personal and the political were fluid and ill defined Melding history and literary study he shows how this unsettled landscape challenged and sometimes confounded the founders attempts to forge their own and the nation s identity Trees traces the intimately linked shaping of self and country by four men distrustful of politics and yet operating in an increasingly democratic world Jefferson sought to recast the political along the lines of friendship while Hamilton hoped that honor would provide a secure foundation for self and country Adams struggled to create a nation virtuous enough to sustain a republican government and Madison worked to establish a government based on justice Giving a new context to the founders mission Trees studies their contributions not simply as policy prescriptions but in terms of a more elusive and symbolic level of action His work illuminates the tangled relationship among rhetoric politics self and nation as well as the larger question of national identity that remains with us today

Art and Morality Morris Grossman, Martin A. Coleman, 2014-05-01 The guiding theme of these essays by aesthetician musician and Santayana scholar Morris Grossman is the importance of preserving the tension between what can be unified and what is disorganized random and miscellaneous Grossman described this as the tension between art and morality Art arrests a sense of change and yields moments of unguarded enjoyment and peace but soon shifting circumstances compel evaluation decision and action According to Grossman the best art preserves the tension between the aesthetic

consummation of experience and the press of morality understood as the business of navigating conflicts making choices and meeting needs This concern was intimately related to his reading of George Santayana The best philosophy like the best art preserves the tension between what can be ordered and what resists assimilation and Grossman read Santayana as exemplifying this virtue in his embrace of multiple perspectives Other scholars have noted the multiplicity or irony in Santayana s work but Grossman was unique in taking such a style to be a substantive part of Santayana s philosophizing
