St. Peter's in the Vatican William Tronzo,2005-08-29 This volume presents an overview of St Peter s history from the late antique period to the twentieth century Music in Medieval Rituals for the End of Life Elaine Stratton Hild,2024 Medieval documents reveal that for centuries of European history singing for a person at the moment of death was considered to be the ideal accompaniment to a life s ending Through investigations of four manuscripts as case studies author Elaine Stratton Hild examines and recovers the music sung for the dying during the Middle Ages and considers the functions of the music a lost art of comforting the dying and the grieving **The Ruin of the Eternal City** David Karmon,2011-04-29 The Ruin of the Eternal City provides the first systematic analysis of the preservation practices of the popes civic magistrates and ordinary citizens of Renaissance Rome This study offers a new understanding of historic preservation as it occurred during the extraordinary rebuilding of a great European capital city The Works of John Ruskin: Turner. The harbours of England John Ruskin,1904 **Reuse Value** Richard Brilliant,Dale Kinney,2016-04-08 This book offers a range of views on spolia and appropriation in art and architecture from fourth century Rome to the late twentieth century Using case studies from different historical moments and cultures contributors test the limits of spolia as a critical category and seek to define its specific character in relation to other forms of artistic appropriation Several authors explore the ethical issues raised by spoliation and their implications for the evaluation and interpretation of new work made with spolia The contemporary fascination with spolia is part of a larger cultural preoccupation with reuse recycling appropriation and re presentation in the Western world All of these practices speak to a desire to make use of pre existing artifacts objects images expressions for contemporary purposes Several essays in this volume focus on the distinction between spolia and other forms of reused objects While some authors prefer to elide such distinctions others insist that spolia entail some form of taking often violent and a diminution of the source from which they are removed The book opens with an essay by the scholar most responsible for the popularity of spolia studies in the later twentieth century Arnold Esch whose seminal article *Spolien* was published in 1969 Subsequent essays treat late Roman antiquity the Eastern Mediterranean and the Western Middle Ages medieval and modern attitudes to spolia in Southern Asia the Italian Renaissance the European Enlightenment modern America and contemporary architecture and visual culture **The Works of John Ruskin: Turner. Old Saint Peter's, Rome Rosamond McKitterick, John Osborne, Carol M. Richardson, Joanna Story, 2013-11-07 St Peter's Basilica in Rome is arguably the most important church in Western Christendom and is among the most significant buildings anywhere in the world However the church that is visible today is a youthful upstart only four hundred years old compared to the twelve hundred year old church whose site it occupies A very small proportion of the original is now extant entirely covered over by the new basilica but enough survives to make reconstruction of the first St Peter's possible and much new evidence has been uncovered in the past thirty years This is the first full study of the older church from its late antique construction to Renaissance destruction in its historical context An international team of historians art historians archaeologists and liturgists explores aspects of the basilica's history from its physical fabric to the activities that took place within its walls and its relationship with the city of Rome
