D-Day General Noel F. Mehlo, 2021-05-15 Omaha was the make or break Allied beach on D Day in perhaps the make or break campaign of World War II If American soldiers couldn't gain a foothold there then D Day was unlikely to succeed On June 6 1944 U S troops on Omaha suffered the worst casualties of any of the five Allied invasion beaches so many casualties and so much tactical difficulty that Omaha almost didn't succeed One big reason why Americans gained a foothold on Omaha was Gen Norman Dutch Cota A graduate of the West Point class of

1917 alongside famous classmates Matthew Ridgway Mark Clark and Lightning Joe Collins Norm Cota played football with Dwight Eisenhower who graduated two years earlier From March 1941 to February 1943 Cota served with the famous 1st Infantry Division the Big Red One as division intelligence officer plans training officer and finally chief of staff He performed so well in the North Africa campaign that he was sent to England to help plan D Day After laying the tactical groundwork for the amphibious landings Cota was made assistant division commander of the 29th Infantry Division On the eve of D Day he told his men You re going to find confusion The landing craft aren t going in on schedule and people are going to be landed in the wrong place Some won t be landed at all We must improvise carry on not lose our heads On June 6 1944 under heavy fire Cota landed with the second wave of the 29th Infantry Division on Omaha Beach about an hour after the start of the invasion He personally rallied the survivors of the landings and led the opening of one of the first exits off Omaha Cota seemed to be everywhere that day Coming upon a group of Rangers the general told them Rangers lead the way hence the Rangers motto He is also known for saying Gentlemen we are being killed on the beaches Let us go inland and be killed And to a captain uncertain how to proceed I ll tell you what captain You and your men start shooting at them I ll take a squad of men and you and your men watch carefully I ll show you how to take a house with Germans in it Having demonstrated the task Cota asked the officer Do you understand Do you know how to do it now I won t be around to do it for you again I can t do it for everybody Great quips which American military history will always remember and which show the character in every sense of Dutch Cota Cota was a fighter a fighting general a D Day general and his contribution to D Day will remain his rallying of demoralized troops and his blazing the trail toward the breakout and victory on Omaha Ted Roosevelt Jr who landed at Utah Beach has always received credit as the D Day general like Cota Roosevelt also demanded that he land on D Day and then died of a heart attack a month later but Cota is the hero general of the day having landed early on D Day on bloody Omaha Portrayed by Robert Mitchum in the grand D Day film The Longest Day Cota has not yet received his due and there s a campaign now afoot to award him a belated Medal of Honor His story cries out to be told Now with the cooperation of the Cota family Noel F Mehlo Jr tells the compelling story Dutch Cota on Omaha Beach revealing new information and never before seen photos

The Cooperstown Symposium on Baseball and American Culture, 2019 and 2021 William M. Simons, 2022-05-16 Selected from the two most recent proceedings of the Cooperstown Symposium on Baseball and American Culture 2019 and 2021, this collection of essays explores subject matter centered both inside and beyond the ballpark. Fifteen contributors offer critical commentary on a range of topics including controversial decisions on the field and in Hall of Fame elections; baseball's historical role as a rite of passage for boys; two worthy catchers who never received their due; the genesis and development of the minor leagues; and baseball's place in popular culture.

The Golden Brigade Robert J. Dvorchak, 2022-12-06 An epic tale of a brotherhood forged by war, masterfully told by a lifelong journalist, war correspondent, and U.S. Army veteran. A must-read by military historians who follow the 82nd Airborne Division. It is a compilation of fascinating stories by brave soldiers who found themselves in the crucible of fierce combat. LTG Retired James H. Johnson, 82nd Airborne Division Commander, Panama and Desert Storm. This book is the best I have ever read about the real situation experienced by infantrymen in the Vietnam War. The stories honor the American soldier and their families and demonstrate the pride all of us had in these men and their leaders. A grand slam hit out of the park.

Robert D. Murrill Esq., Distinguished Member of the 508th Parachute Infantry Regiment in the Golden Brigade. It is a story that needs to be told and one that all paratroopers young and old need to know. When the nation calls, there were and must always be those who will answer, even if it means they sacrifice their today so that others will experience their tomorrow.

J. Thomas Hennessey Jr., Colonel Retired, Distinguished Member of the 505th Parachute Infantry Regiment, Chief of Staff Emeritus at George Mason University. A solid chunk of history about an extraordinary brotherhood of warriors.

Vietnam Veterans of America

The Icepick Surgeon Sam Kean, 2021-07-13 From a New York Times bestselling author comes the gripping, untold history of science's darkest secrets: a fascinating book that deserves a wide audience. Publishers Weekly starred review: Science is a force for good in the world, at least usually. But sometimes when obsession gets the better of scientists, they twist a noble pursuit into something sinister. Under this spell, knowledge isn't everything; it's the only thing, no matter the cost. Bestselling author Sam Kean tells the true story of what happens when unfettered ambition pushes otherwise rational men and women to cross the line in the name of science, trampling ethical boundaries and often committing crimes in the process. The Icepick Surgeon masterfully guides the reader across two thousand years of history, beginning with Cleopatra's dark deeds in ancient Egypt. The book reveals the origins of much of modern science in the transatlantic slave trade of the 1700s, as well as Thomas Edison's mercenary support of the electric chair and the warped logic of the spies who infiltrated the Manhattan Project. But the sins of science aren't all safely buried in the past. Many of them, Kean reminds us, still affect us today. We can draw direct

lines from the medical abuses of Tuskegee and Nazi Germany to current vaccine hesitancy and connect icepick lobotomies from the 1950s to the contemporary failings of mental health care Kean even takes us into the future when advanced computers and genetic engineering could unleash whole new ways to do one another wrong Unflinching and exhilarating to the last page The Icepick Surgeon fuses the drama of scientific discovery with the illicit thrill of a true crime tale With his trademark wit and precision Kean shows that while science has done more good than harm in the world rogue scientists do exist and when we sacrifice morals for progress we often end up with neither

The Race for the Atomic

Bomb Norman Ridley,2023-04-06 On 19 December 1938 Otto Hahn working at the Kaiser Wilhelm Institute for Chemistry in Berlin conducted an experiment the results of which baffled him It took his migr collaborator Lise Meitner to explain that he had split an atom of uranium which at the time seemed to defy all known laws of physics When Neils Bohr took this news to the United States it became clear to scientists there that these results opened a completely new and for some horrifying possibility of energy production that could be used for both peaceful and military purposes Scientists in Germany France Britain and the US began to delve deeper into the implications But it was the British government that was the first to explicitly describe how the splitting of the atom might be utilized to create a practical weapon of fearsome power France by then had been occupied by the Germans and most of their nuclear scientists had fled to Britain For their part the Germans who for a time were at the very forefront of nuclear research had weakened their own scientific ranks by hounding many of their best scientists who had fled persecution under the draconian Nazi racial laws They still retained however possibly the ablest nuclear scientist of them all in Werner Heisenberg who set about developing his own program for nuclear power British scientists made extensive progress before realizing that translating their laboratory results into the vast industrial enterprise required to build a bomb was way beyond the nation s stretched resources The government agreed to hand over

all the UK's research findings to America in return for a share of the spoils. The United States for its part was impressed with British results and invested enormous sums of money and resources into what became known as the Manhattan Project in a concerted effort to build a bomb before the end of the war. For much of the war the Soviets showed little enthusiasm for the sort of investment required to build their own bomb. However with an eye to the future they established an extensive espionage network both in Britain and America. Following the German surrender there was still the problem of Japan and the race continued to develop a working bomb to accelerate the end of the war both to save Allied lives and to prevent Soviet expansion into northern China and the Japanese mainland. It was a race that the United States won. It was also a race that ushered in a new Cold War.
