Jr., Chris Benner, Martha Matsuoka, 2015-10-27 For nearly two decades progressives have been dismayed by the steady rise of the right in U S politics Often lost in the gloom and doom about American politics is a striking and sometimes underanalyzed phenomenon the resurgence of progressive politics and movements at a local level Across the country urban coalitions including labor faith groups and community based organizations have come together to support living wage laws and fight for transit policies that can move the needle on issues of working poverty Just as striking as the rise of this progressive resurgence has been its reception among unlikely allies In places as diverse as Chicago Atlanta and San Jose the usual business resistance to pro equity policies has changed particularly when it comes to issues like affordable housing and more efficient transportation systems. To see this change and its possibilities requires that we recognize a new thread running through many local efforts a perspective and politics that emphasizes regional equity Manuel Pastor Ir Chris Benner and Martha Matsuoka offer their analysis with an eye toward evaluating what has and has not worked in various campaigns to achieve regional equity The authors show how momentum is building as new policies addressing regional infrastructure housing and workforce development bring together business and community groups who share a common desire to see their city and region succeed Drawing on a wealth of case studies as well as their own experience in the field Pastor Benner and Matsuoka point out the promise and pitfalls of this new approach concluding that what they term social movement regionalism might offer an important contribution to the revitalization of progressive politics in America Inclusive Innovation Gerard George, 2019 The Handbook of Inclusive and Social Innovation The Role of Organizations Markets and Communities offers a comprehensive review of research on inclusive innovation to address systemic and structural issues the Grand Challenges of our time With 27 contributions from 57 scholars the Handbook provides frameworks and insights by summarising current research and highlights emerging practices and scalable solutions The contributions highlight a call to action and place social impact at the heart of theory and practice It will be an invaluable resource for academics practitioners and policymakers who champion social inclusion and emphasize innovative approaches Neighborhood Effects on Crime and Youth Violence, 2009 Business to addressing sustainable development goals improvement districts BIDs collect assessments and invest in local service provisions and activities such as place promotion street cleaning and public safety Such activities can help reduce crime and youth violence by increasing informal social control reducing signs of disorder and blight improving order maintenance and enriching job opportunities This report examines BIDs impact on crime and youth violence in Los Angeles The Oxford Handbook of Governance David Levi-Faur, 2012-03-29 This Oxford Handbook will be the definitive study of governance for years to come Governance has become one of the most popular terms in contemporary political science this Handbook explores the full range of meaning and application of the concept and its use in a number of research fields Constituting Economic and Social Rights Katharine G. Clearinghouse Review ,2002 The Business of Black Power Laura Warren Hill, Julia Rabig, 2012 Explores business development in the Black power era and the centrality of economic goals to the larger black freedom movement The Business of Black Power emphasizes the centrality of economic goals to the larger black freedom movement and explores the myriad forms of business development in the Black power era This volume charts a new course forBlack power studies and business history exploring both the business ventures that Black power fostered and the impact of Black power on the nation s business world Black activists pressed business leaders corporations and various levels of government into supporting a range of economic development ventures from Black entrepreneurship to grassroots experiments in economic self determination to indigenous attempts to rebuild inner city markets in thewake of disinvestment They pioneered new economic and development strategies often in concert with corporate executives and public officials Yet these same actors also engaged in fierce debates over the role of business in strengthening the movement and some African Americans outright rejected capitalism or collaboration with business The ten scholars in this collection bring fresh analysis to this complex intersection of African American and business history to reveal how Black power advocates or those purporting a Black power agenda engaged business to advance their economic political and social goals They show the business of Black power taking place in thestreets boardrooms journals and periodicals corporations courts and housing projects of America In short few were left untouched by the influence of this movement Laura Warren Hill is assistant professor of history at Bloomfield City Power Richard C. Schragger, 2016 Reigning theories of urban College Julia Rabig is a lecturer at Dartmouth College power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In City Power Richard Schragger challenges this conventional wisdom arguing that cities can and should pursue aims other than making themselves attractive to global capital Using the municipal living wage movement as an example Schragger explains why cities are well positioned to address issues like income equality and how our institutions can be designed to allow them to do so **Community, Home, and Identity** Terry L. Turnipseed, 2016-05-23 Community home and identity are concepts that have concerned scholars in a variety of fields for some time Legal scholars sociologists anthropologists psychologists and economists among others have studied the impacts of home and community on one s identity and how one

s identity is manifested in one s home and in one s community This volume brings together some of the leading thinkers about the connections between community home and identity Several chapters address how the law and lawyers contribute or detract from the creation and maintenance of community and in some cases the conscious destruction of communities Others examine the protection of individual and group identities through rules related to property title and use of such things as Home and identity property Stones of Hope Lucie White, Jeremy Perelman, 2011 Stones of Hope shows how African human rights activists have opened new possibilities for justice in the everyday lives of the world's most impoverished The Fixers Julia Rabig, 2016-09-28 Stories of Newark's postwar decline are easy to find But in The Fixers Julia peoples Rabig supplements these tales of misery with the story of the many imaginative challenges to the city's decline mounted by Newark's residents and suburban neighbors In these pages we meet the black nationalists whose dynamic organizing elected African American candidates in unprecedented numbers There are tenants who mounted a historic rent strike to transform public housing and renegade white Catholic priests who joined black laywomen to pioneer the construction of low income housing and influence housing policy These are just a few of the fixers we meet people who devised ways to work with limited resources and pull together the threads of a patchwork welfare state Rabig argues that fixers play dual roles They support resistance but also mediation they fight for reform but also more radical and far reaching alternatives they rally others to a collective cause but sometimes they broker factions Fixers reflect longer traditions of organizing while responding to the demands of their times In so doing they end up fixing like a fixative a new and enduring pattern of activist strategies reforms and institutional expectations a pattern we continue to see today For the Poor and Disenfranchised Robert Sauté, 2014-12-17 For the Poor and Disenfranchised is an historical and institutional analysis of the public interest bar in the United States It traces how the legal profession delivered on the legal system's promise of equal justice for all by making the legal system available to all and a vehicle for substantive justice exploring political mobilization entrepreneurial lawyering and pro bono publico representation In this dramatic and detailed account Robert Saut documents the establishment and evolution of the public interest bar particularly its struggles to provide zealous advocacy for its clients Through meticulous historical research in case studies of the New York Legal Aid Society NAACP ACLU and Legal Services Corporation Saut s book analyzes how access to the legal system has been affected by cultural and structural changes in society and in American politics His chapter on pro bono in large firms reveals how a new generation of elite lawyers defines its commitment to professionalism and the poor Cynthia Fuchs Epstein Distinguished Professor Graduate Center CUNY Author Women in Law Rob Saut's For the Poor and Disenfranchised is a subtle and fascinating history of the development of public interest and poverty law in the United States analyzing how the legal profession has responded to the needs of the poor and disenfranchised over time Although there have been many advances in the ways those needs are met Saut closely examines the influence of the market social movements and other factors and suggests that those responses have been inadequate
