Millor, 2019-03-04 Analyzing the effects of Mexico s newly flourishing petroleum industry Dr Millor first traces the evolution of Mexico s oil development and provides a detailed assessment of its socioeconomic political and ecological consequences and of the Mexican government s current energy policies In his subsequent examination of U S Mexican relations he emphasizes that aside from the issues directly related to Mexico s petroleum a complex assortment of concerns remain unresolved between the two nations illegal immigration drug traffic terms of technical and scientific cooperation restrictions on Mexican exports in the U S market and the more assertive foreign policy stance recently taken by Mexico Dr Millor argues that far from representing a clear case of positive growth for Mexico petroleum could bring about distorted development and increased dependency as well as a difficult period of relations with the U S If a stable association between the two governments is to emerge he concludes U S policymakers must understand the changes taking place in Mexico and accept its emergence as a middle power with autonomous goals Representing both the Mexican and the U S point of view this study contributes much to a better understanding of the significance of oil for Mexican development and to a balanced assessment of present and future U S Mexican relations

War Clara Nieto, 2011-01-04 In *Masters of War* Clara Nieto adeptly presents the parallel histories of the countries of Latin America histories that are intertwined each reflecting the United States coherent policy of intervention set into motion by the Monroe Doctrine As the value of this continued policy comes increasingly into question Nieto argues for the need to evaluate the alarming precedent set in Latin America the institution of client dictatorships the roles played by the interests of U S corporations the enormous tolls taken on civilian populations and the irreversible disruption of regional stability Drawing from an impressive array of documents and sources as well as from her unique first hand insights as a participant in crucial meetings and negotiations in the region from the mid 1960s through the mid 1980s Nieto chronicles the Cuban Revolution the CIA sponsored coup against popularly elected President Allende in Chile the U S invasions of Panama and Grenada U S support for the cultivation and training of paramilitary death squads in Nicaragua El Salvador and Colombia as well as similarly severe but less well known situations in other countries such as Uruguay Venezuela Argentina Peru Bolivia Honduras and Guatemala *Masters of War* offers from an informed perspective perhaps for the first time a distanced objective analysis of recent Latin American history Clara Nieto s depth of knowledge and understanding is an invaluable resource at a time when the media is seen as unapologetically aligned with the interests of major corporations and policymakers and the American public has reached a new height of apprehension regarding the intentions behind and consequences of its government s policies
