Conquest of Peru William Prescott,2014-09-11 During the Age of Exploration Native American tribes fell victim to European conquerors seeking legendary cities made of gold and other riches attempts that were often being made in vain And yet of all the empires that were conquered across the continent the one that continues to be most intimately associated with legends of gold and hidden riches is the Inca Empire The Inca Empire which flourished in modern day Peru and along the west coast of South America was the largest Native American empire in pre Columbian America until Pizarro and the Spanish conquistadors conquered them in the 16th century What ultimately sealed their doom was the rumor that huge amounts of gold were available in regions south of the Andes Mountains Though the Spanish physically conquered them in quick fashion the culture and legacy of the Inca Empire has continued to endure throughout the centuries in both Europe and South America due in no small part to the fact they were one of the most advanced and sophisticated cultures on the continent Like the Aztecs the Spanish burned much of the Inca s extant writings but it is estimated that as many as 35 million once fell under their banner and the empire s administrative skills were so sharp that they kept accurate census records Their religion organization and laws were also effectively centralized and tied to the rulers of the empire and their military mobilization would have made the ancient Spartans proud After the Spanish conquest several rebellions in the area attempted to reestablish the proud Inca Empire over the next two centuries all while famous Europeans like Voltaire glorified the Inca Empire in optimistic artistic portrayals The mystique and aura of the Inca continue to fascinate the world today and nowhere is this more prominent than at Macchu Picchu which was lost for over 300 years and remains the subject of intense debate among historians The magnificent ruins and the inability of historians to crack the code used for the Inca s few surviving written records all continue to add to the mystery and interest in the Inca civilization **An Account of the Conquest of**

Peru Pedro Sancho,2011-05-02 The history of Peru spans several millennia Long before the Incas there existed peoples who thrived in this territory About 15 200 years ago groups of people are believed to have crossed the Bering Strait from Asia and survived as nomads hunting gathering fruits and vegetables and fishing in the sea rivers and lakes Peruvian territory was home to the Norte Chico civilization one of the six oldest in the world and to the Inca Empire the largest state in Pre Columbian America When the Spanish landed in 1531 Peru s territory was the nucleus of the highly developed Inca civilization Centered at Cuzco the Inca Empire extended over a vast region stretching from northern Ecuador to central Chile Francisco Pizarro and his brothers were attracted by the news of a rich and fabulous kingdom In 1532 they arrived in the

country which they called Peru. The forms Biru, Pir, and Ber are also seen in early records. According to Raúl Porras Barrenechea, Peru is not a Quechuan nor Caribbean word but Indo-Hispanic or hybrid. In the years between 1524 and 1526, smallpox introduced from Panama and preceding the Spanish conquerors swept through the Inca Empire. The death of the Incan ruler Huayna Capac, as well as most of his family including his heir, caused the fall of the Incan political structure and contributed to the civil war between the brothers Atahualpa and Huáscar. Taking advantage of this, Pizarro carried out a coup d'état. On November 16, 1532, while the natives were in a celebration in Cajamarca, the Spanish, in a surprise move, captured the Inca Atahualpa during the Battle of Cajamarca, causing a great consternation among the natives and conditioning the future course of the fight. When Huáscar was killed, the Spanish tried and convicted Atahualpa of the murder, executing him by strangulation.
