*Cases and Materials on the Law of the Sea* Louis B. Sohn, John Noyes, 2021-10-25 Cases and Materials on the Law of the Sea is a thoroughly up to date text that will be used both as a classroom course book and as a treatise and reference guide The text contains engaging teaching materials that systematically introduce law of the sea topics placing them in the context of important themes about the roles of international law and international legal process Historical materials of continuing importance appear alongside new materials that address such topics as maritime terrorism and port security the protection of underwater cultural heritage marine sanctuaries deep sea vent resources and the operation of the International Tribunal for the Law of the Sea and other new international organizations Published under the Transnational Publishers imprint

**A handbook on the new law of the sea. 2 (1991)** René Jean Dupuy, Daniel Vignes, 1991-10-16 The fact that the Montego Bay Convention has been only ratified by 37 States at present and that it will be some time before the 60 ratifications required by Article 308 are achieved has not prevented states from acting in accordance with the rules drawn up by the Conference Close on one hundred states have established either exclusive economic zones broadly modelled on Part V or 200 nautical mile fishery zones and drawn on the principles laid down for exploiting living resources Although these laws have been formulated unilaterally by states international custom since the judgement by the International Court of Justice in the Fisheries Case of 18 December 1951 is derived from concordant national rules This shift began even before the Conference ended and has been consolidated since then Moreover the regime governing the sea bed beyond the limits of national jurisdiction defined by Part XI which was the stumbling block of the Conference is subject to transitional arrangements on the basis of two resolutions adopted in the Conference's Final Act one providing for the establishment of a Preparatory Commission and the other on the preliminary activities of pioneer investors This two volume work an earlier edition of which appeared in French has been written by a team of experts of international renown It presents an analysis of the Convention with an additional Chapter on the legal regime governing underwater archaeological and historical objects

**Towards the Conceptualisation of Maritime Delimitation** Nuno Marques Antunes, 2022-05-16 This new monograph on maritime delimitation by Dr Nuno Antunes is based on a thesis submitted for the degree of Doctor of Philosophy at the University of Durham The work is one of legal political and technical analysis of an aspect of the law of the sea that is of current interest in all regions of the world

A Handbook on the New Law of the Sea, Volume 2 Daniel Vignes, R.J. Dupuy, 2023-09-20 The fact that the Montego Bay Convention has been only ratified by 37 States at present and that it will be some time before the 60 ratifications required by Article 308 are achieved has not prevented states from acting in accordance with the rules drawn up by the Conference Close on one hundred states have established either exclusive economic zones broadly modelled on Part V or 200 nautical mile fishery zones and drawn on the principles laid down for exploiting living resources Although these laws have been formulated unilaterally by states international custom since the judgement by the International Court of Justice in

the Fisheries Case of 18 December 1951 is derived from concordant national rules This shift began even before the Conference ended and has been consolidated since then Moreover the regime governing the sea bed beyond the limits of national jurisdiction defined by Part XI which was the stumbling block of the Conference is subject to transitional arrangements on the basis of two resolutions adopted in the Conference's Final Act one providing for the establishment of a Preparatory Commission and the other on the preliminary activities of pioneer investors This two volume work an earlier edition of which appeared in French has been written by a team of experts of international renown It presents an analysis of the Convention with an additional Chapter on the legal regime governing underwater archaeological and historical objects

*The Federal Coastal Programs Review* United States. National Oceanic and Atmospheric Administration,1981

**Predictability and Flexibility in the Law of Maritime Delimitation** Yoshifumi Tanaka,2019-11-14 This fully revised new edition offers a comprehensive picture of the law of maritime delimitation incorporating all new cases and State practice in this field As with all types of law the law of maritime delimitation should possess a degree of predictability On the other hand as maritime delimitation cases differ flexible considerations of geographical and non geographical factors are also required in order to achieve equitable results How then is it possible to ensure predictability while taking into account a number of diverse factors in order to achieve an equitable result This is the question at the heart of the law of maritime delimitation This book explores a well balanced legal framework that reconciles predictability and flexibility in the law of maritime delimitation by looking at three aspects of the question first it reviews the evolution of the law of maritime delimitation second it undertakes a comparative study of the case law and State practice and third it critically assesses the law of maritime delimitation in its current form

*The Socialist Republic of Vietnam and the Law of the Sea* Epsey Cooke Farrell,2021-09-27 The Socialist Republic of Vietnam and the Law of the Sea analyzes Vietnam's policies on the law of the sea in relation to the country's overall foreign policy goals and its position at the center of the South China Sea geostrategic region It examines Vietnam's claims in zones of maritime jurisdiction and its regulation of maritime activities in the context of the 1982 U N Convention on the Law of the Sea and against the backdrop of Vietnam's security interests economic development and regional leadership goals The author explores Vietnam's maritime boundary disputes with its Southeast Asian neighbors and China and assesses their impact on regional stability This is the first comprehensive study to trace the evolution of Vietnamese policy and participation in law of the sea development from the 1958 First U N Conference on the Law of the Sea to the present The book provides the background essential to an understanding of Vietnam's current maritime relations and of the challenge to incorporate Vietnam into a stable regional order Law of the sea specialists Southeast Asia area specialists and those interested in the development of Vietnam's hydrocarbon and fishery resources will find this a particularly valuable resource

**The Continental Shelf** Thomas A. Grigalunas,Lynne Carter Hanson,1986 Selected

Water Resources Abstracts ,1980      **A Legislative History of the Fishery Conservation and Management Act of 1976**,1976      **Changes in the Arctic** Ronald O'Rourke,2011-02 The diminishment of Arctic sea ice has led to increased human activities in the Arctic and has heightened concerns about the region s future Contents of this report 1 Intro 2 Background Definitions of the Arctic Arctic Circle Definition and Resulting Arctic Countries 3 Issues for Congress Climate Change and Loss of Arctic Sea Ice Territorial Claims and Sovereignty Issues Commercial Sea Transport Regulation of Arctic Shipping Oil Gas and Mineral Exploration Extent of the Continental Margin Minerals Environ and Economics Oil Pollution and Pollution Response Response and Cleanup Challenges in the Arctic Region Fisheries Indigenous People Effects of Climate Change U S Military Forces Illus This is a print on demand report      **Handbook of Research on International Collaboration, Economic Development, and Sustainability in the Arctic** Erokhin, Vasilli,Gao, Tianming,Zhang, Xiuhua,2018-12-28 Global interest in the exploration of the Arctic has been growing rapidly As the Arctic becomes a global resource base and trade corridor between the continents it is crucial to identify the dangers that such a boom of extractive industries and transport routes may bring on the people and the environment The Handbook of Research on International Collaboration Economic Development and Sustainability in the Arctic discusses the perspectives and major challenges of the investment collaboration and development and commercial use of trade routes in the Arctic Featuring research on topics such as agricultural production environmental resources and investment collaboration this book is ideally designed for policymakers business leaders and environmental researchers seeking coverage on new practices and solutions in the sphere of achieving sustainability in economic exploration of the Arctic region      **The Maritime Political Boundaries of the World** Victor Prescott,Clive Schofield,2005-01-01 This book addresses the often vexed question of national maritime claims and the delimitation of international maritime boundaries The number of undelimited international maritime boundaries is much larger than the number of agreed lines The two boundaries that define the marine domain of coastal states are examined First the baselines along the coast may consist of low water lines or straight lines or a combination of both When straight lines are used they define the seaward limit of the state s internal waters Second the outer limits of claims to territorial seas contiguous zones and exclusive economic zones are measured from the baselines All states will have to delimit at least one international boundary with a neighbouring state whether adjacent or opposite In confined seas no state can claim the full entitlement and must negotiate international boundaries with all neighbours Many states bordering oceans can claim the full entitlement seawards although they will need to delimit national boundaries with adjacent neighbours      **Case Concerning Delimitation of the Maritime Boundary in the Gulf of Maine Area (Canada/United States of America)** International Court of Justice,1982      **Routledge Handbook of Seabed Mining and the Law of the Sea** Virginie Tassin,2023-12-29 For years exploration of seabed natural resources has been ongoing while exploitation in deep marine areas remained unrealistic due to land based mineral availability and costs However mounting pressures from the green transition climate

change and long lasting fears of terrestrial minerals scarcity now bring exploitation prospects closer to reality This has caused concern to a growing chorus of States scientists industries NGOs and parts of civil society due to the potential environmental and social impacts of these activities As a result the idea of a moratorium or precautionary pause is gaining ground Yet an important number of interpretation and implementation issues of the United Nations Convention on the Law of the Sea UNCLOS and the 1994 Agreement remain to be answered as a means to move forward in accordance with international law This multidisciplinary book designed to become the essential handbook on the matter provides a global overview of the national regional and international regulatory frameworks applicable to the exploration and exploitation of seabed minerals on the continental shelf and the Area as well as the related state of the science on the matter By presenting historical and geopolitical context crucial to understanding regulation evolution the book equips readers with foundational legal and policy knowledge It furthermore addresses contemporary and prospective issues and offers unique insights into regional and national practices including non Party States to UNCLOS Chapters I 3 IV 1 and VI 1 4 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The law of the sea Robin Churchill, Vaughan Lowe, Amy Sander, 2022-05-10 For nearly forty years The law of the sea has been regarded as an authoritative and standard work on the subject combining detailed analysis and relevant practical examples with a clear and engaging style Completely revised and updated this new edition will be a vital resource for anyone with an interest in maritime affairs The book provides a rigorous analysis of the 1982 UN Convention on the Law of the Sea and the many other legal instruments that regulate human activities at sea as well as taking full account of the numerous decisions of international courts and tribunals in recent years It also traces the historical background to the law and its broader political economic and environmental context The new edition includes substantially expanded coverage of contemporary threats faced by the marine environment from human activities such as the loss of marine biodiversity the effects of climate change on the oceans and the vast amounts of plastic polluting the sea This volume is written by three highly qualified authors drawing on their extensive experience of teaching and researching the law of the sea as well as their practical experience in advising governments and acting as counsel and arbitrators in international litigation
