The Continuing Quest For God Monastic Spirituality In Tradition And Transition:

The Continuing Quest for God William Skudlarek, 1982 The Monastic Landscape of Late Antique Egypt Darlene L. Brooks Hedstrom, 2017-11-27 Darlene L Brooks Hedstrom offers a new history of the field of Egyptian monastic archaeology. It is the first study in English to trace how scholars identified a space or site as monastic within the Egyptian landscape and how such identifications impacted perceptions of monasticism. Brooks Hedstrom then provides an ecohistory of Egypt's tripartite landscape to offer a reorientation of the perception of the physical landscape. She analyzes late antique documentary evidence, early monastic literature, and ecclesiastical history before turning to the extensive archaeological evidence of Christian monastic settlements. In doing so, she illustrates the stark differences between idealized monastic landscape and the actual monastic landscape that was urbanized through monastic constructions. Drawing upon critical theories in landscape studies, materiality, and phenomenology, Brooks Hedstrom looks at domestic settlements of non-monastic and monastic settlements to posit what features make monastic settlements unique, thus offering a new history of monasticism in Egypt.

The Story of Monasticism Greg Peters, 2015-08-11 Some evangelicals perceive monasticism as a relic from the past, a retreat from the world, or a shirking of the call to the Great Commission. At the same time, contemporary evangelical spirituality desires historical Christian manifestations of the faith. In this accessibly written book, Greg Peters, an expert in monastic studies who is a Benedictine oblate and spiritual director, offers a historical survey of monasticism from its origins to current manifestations. Peters recovers the riches of the monastic tradition for contemporary spiritual formation and devotional practice, explaining why the monastic impulse is a valid and necessary manifestation of the Christian faith for today's church.

Eusebius, Christianity and Judaism Gohei Hata, Harold W. Attridge, 2022-10-04 Eusebius of Caesarea lived at a crucial turning point in the history of the Christian church. He was an important witness to the polemical and apologetic attitudes that characterized much early Christian literature. The most voluminous writer of the early fourth century, he was also the first comprehensive historian of his community, seeking a philosophy to explain the whole course of history from the beginning to his own time. This volume places Eusebius' work in proper perspective. The contributors, all recognized specialists in early Christianity, shed light on the person and circumstances of Eusebius himself. This collection of essays focuses on elements of the story that Eusebius tells: the story of the early church, its relationship to Judaism, or its confrontation with the Roman Empire, and explores gaps left by Eusebius. The writers offer a cross-section of current scholarly methods in the study of early Christianity and Judaism.

The Liturgy of the Hours in East and West Robert Taft, 2024-05-30 The origins and development of the Divine Office are traced through both Eastern and Western branches of the Church, providing a wealth of historical and liturgical information. From the small beginnings of a few Christians in New Testament Jerusalem, the prayer of the Church spread, changing and evolving as it met and was assimilated by different cultures. This classic study is a major resource for the liturgical scholar.

Ascetic Eucharists Andrew McGowan, 1999-05-20 The early Eucharist has usually been seen as sacramental eating of token bread and wine in careful or even slavish imitation of Jesus and his earliest disciples In fact the evidence suggests great diversity in its conduct including the use of foods in the first few hundred years Eucharistic meals involving cheese milk salt oil and vegetables are attested and some have argued that even fish was used The most significant exception to using bread and wine however was a bread and water Christian meal an ancient ascetic form of the Eucharist This tradition also involved rejection of meat from general diet and reflected the concern of dissident communities to avoid the cuisine meat and wine characteristic of pagan sacrifice This study describes and discusses these practices fully for the first time and provides important new insights into the liturgical and social history of early Christianity

'Virgins of God' : The Making of Asceticism in Late Antiquity Susanna Elm, 1994-09-15 Many of the institutions fundamental to the role of men and women in society today were formed in late antiquity This path breaking study offers a comprehensive look at how Christian women of this time initiated alternative ascetic ways of living both with and without men The author studies how these practices were institutionalized and why later they were either eliminated or transformed by a new Christian Roman elite of men we now think of as the founding fathers of monasticism Situated in a period that witnessed the genesis of institutions fundamental to this day this path breaking study offers a comprehensive look at how ancient Christian women initiated ascetic ways of living and how these practices were then institutionalized Using the organization of female asceticism in Asia Minor and Egypt as a lever the author demonstrates that in direct contrast to later conceptions asceticism began primarily as an urban movement Crucially it also originated with men and women living together varying the model of the family The book then traces how in the course of the fourth century these early organizational forms underwent a transformation Concurrent with the doctrinal struggles to redefine the Trinity and with the formation of a new Christian elite men such as Basil of Caesarea changed the institutional configuration of ascetic life in common they emphasized the segregation of the sexes and the supremacy of the rural over urban models At the same time ascetics became clerics who increasingly used female saints as symbols for the role of the new ecclesiastical elite Earlier more varied models of ascetic life were either silenced or condemned as heretical and those who had been in fact their reformers became known as the founding fathers of monasticism
