Coding, Shaping, Making Haresh Lalvani, 2023-01-31
Coding Shaping Making combines inspiration from architecture mathematics biology chemistry physics and computation to look towards the future of architecture design and art It presents ongoing experiments in the search for fundamental principles of form and form making in nature so that we can better inform our own built environment In the coming decades matter will become encoded with shape information so that it shapes itself as happens in biology Physical objects shaped by forces as well will begin to design themselves based on information encoded in matter they are made of This knowledge will be scaled and trickled up to architecture Consequently architecture will begin to design itself and the role of the architect will need redefining This heavily illustrated book highlights Haresh Lalvani s efforts towards this speculative future through experiments in form and form making including his work in developing a new approach to shape coding exploring higher dimensional geometry for designing physical structures and organizing form in higher dimensional diagrams Taking an in depth look at Lalvani s pioneering experiments of mass customization in industrial products in architecture combined with his idea of a form continuum this book argues for the need for integration of coding shaping and making in future technologies into one seamless process Drawing together decades of research this book will be a thought provoking read for architecture professionals and students especially those interested in the future of the discipline as it relates to mathematics science technology and art It will also interest those in the latter fields for its broader implications

Art Now Gallery Guide , 1991-03 **Bruce Goff** Arn Henderson, 2017-04-27 Renowned today as one of the most

important architects of the twentieth century Bruce Goff 1904 1982 was only twelve years old when a Tulsa architectural firm took him on as an apprentice Throughout his career he defied expectations not only as a designer of innovative buildings but also as a gifted educator and painter This beautifully illustrated volume featuring more than 150 photographs architectural drawings and color plates explores the vast multitude of ideas and themes that influenced Goff s work Tracing what he calls Goff s path of originality Arn Henderson begins by describing two of Goff s earliest and most significant influences the architect Frank Lloyd Wright and the French composer Claude Debussy As Henderson explains Goff embraced from a young age Wright s ideal of organic expression where all elements of a building s design are integrated into a unified whole Although Goff s stylistic dependence on Wright eventually waned the music of Debussy with its qualities of mystery and discipline in freedom was a perpetual source of inspiration Henderson also emphasizes Goff s identification with the American West particularly Oklahoma where he developed most of his ideas and created many of his masterful buildings Goff served as a professor at the University of Oklahoma between 1947 and 1955 becoming the first chair of its School of Architecture The new studio course he introduced was a pivotal development ensuring that his ideas were imparted to the next generation of architects Part biography of a well known architect part analysis of Goff s work this book is also a finely woven tapestry of information and interpretation that encompasses the ideas and experiences that shaped Goff s artistic vision over his lifetime Based on scores of interviews with Goff s associates and former students as well as the author s firsthand study of Goff s extant buildings this volume deepens our appreciation of the great architect s lasting legacy
