visit art galleries cinemas or read comics This book concerns that visual experience Why do we have the visual experiences we have Why do the buildings cars products and advertisements we see look the way they do How are we to explain the existence of different styles of paintings different types of cars and different genres of film How are we to explain the existence of different visual cultures This book begins to answer these questions by explaining visual experience in terms of visual culture The strengths and weaknesses of traditional means of analysing and explaining visual culture are examined and assessed Using a wide range of historical and contemporary examples it is argued that the groups which artists and designers form the audiences and markets which they sell to and the different social classes which are produced and reproduced by art and design are all part of the successful explanation and critical evaluation of visual culture **American Art Directory** ,1905 The biographical material formerly included in the directory is issued separately as Who s who in American art 1936 37
