fiscal reforms and high oil prices The primary non oil deficits are expected to decrease to 24 percent of GDP by 2028 with higher non oil revenue reflecting sustained fiscal and structural reforms and contained expenditures High global uncertainty is weighing on the outlook

Gulf Cooperation Council International Monetary, International Monetary Fund. Middle East and Central Asia Dept., 2022-11-29 GCC policymakers have managed to quickly mitigate the economic impact of the twin COVID 19 and oil price shock Commodity prices have surged and the outlook is more positive for GCC countries with new challenges linked to Russia's invasion of Ukraine and tighter global financial conditions expected to have a limited impact on GCC economies While GCC countries have overall benefited from higher albeit volatile hydrocarbon prices numerous risks still cloud the outlook notably a slowdown in the global economy In this context the reform momentum established during the low oil price years should be maintained irrespective of the level of hydrocarbon prices

The European Community and the Gulf Cooperation Council (GCC). Commission of the European Communities. Directorate General of Information, 1985 **From Alliance to Union** Joseph A. Kechichian, 2016 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Cooperation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that coordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation's founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations

resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be pre paring to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States No one has been a closer observer of the Gulf Cooperation Council for the 35 years of its existence than Joseph Kechichian He knows the GCC and the countries making it up intimately His analysis is a vital contribution for understanding the future of the organization and the challenges it faces F Gregory Gause III Bush School of Government and Public Service Texas A M University College Station Texas Subject Middle East Studies Politics The Gulf Cooperation Council Mohammed Y.
