The Publishers Weekly ,2006 There's The Steeple... Here's The Church Greg Campbell,2006 From the cover The church is so much more than we let it be It is not a denomination or a worship style or a carefully planned array of programs The church is not defined by what we do but who we are **Bring on the Books for Everybody** Jim Collins,2010-06-30 A look at how technology and literary visual and consumer cultures have combined over the past two decades to transform a once solitary print based experience into an exuberantly social activity Astrology and Cosmology in the World's Religions Nicholas Campion,2023-11-21 An ambitious examination of cosmologies and astrologies from around the world The diversity of cultures Campion includes is impressive Jacqueline Feke History of Astronomy When you think of astrology you may think of the horoscope section in your local paper or of Nancy Reagan s consultations with an astrologer in the White House in the 1980s Yet almost every religion uses some form of astrology some way of thinking about the sun moon stars and planets and how they hold significance for human lives on earth Astrology and Cosmology in the World s Religions offers an accessible overview of the astrologies of the world s religions placing them into context within theories of how the wider universe came into being and operates Campion traces beliefs about the heavens among peoples ranging from ancient Egypt and China to Australia and Polynesia and India and the Islamic world Addressing each religion in a separate chapter Campion outlines how by observing the celestial bodies people have engaged with the divine managed the future and attempted to understand events here on earth This fascinating text offers a unique way to delve into comparative religions and will also appeal to those intrigued by New Age topics Unlike most students of astrology Campion transcends the limitations of Western tradition to examine the nature and roles of astrological and cosmological concepts in cultures from all continents His examples provide original insights into how cosmologies shape these cultures artistic intellectual and religious activities Stephen McCluskey West Virginia University **The Order of Days** David Stuart,2011-05-17 The world s foremost expert on Maya culture looks at 2012 hysteria and explains the truth about what the Maya meant and what we want to believe Apocalypse 2012 An Investigation into Civilizations End The World Cataclysm in 2012 2012 The return of Quetzalcoatl According to many of these alarmingly titled books the ancient Maya not only had a keen insight into the mystical workings of our planet and the cosmos but they were also able to predict that the world will end in the year 2012 David Stuart the foremost scholar of the Maya and recipient of numerous awards for his work takes a hard look at the frenzy over 2012 and offers a fascination and accurate trip through Mayan culture and belief Stuart shows how the idea that the end of the Mayan calendar which supposedly heralds the end of our own existence says far more about our culture than about the ancient Maya The Order of Days explores how the real intellectual achievement of ancient Maya timekeeping and worldview is far more impressive and remarkable than any of the popular and often outrageous claims about this advanced civilization As someone who has studied the Maya for nearly all of his life and who specializes in reading their ancient texts Stuart sees the 2012 hubbub as the most

recent in a long chain of related ideas about Mesoamericans the Maya in particular that depicts them as somehow oddball not of this world or as having some strong mystical link to other realms Because the year 2012 has no prominent role in anything the ancient Maya ever actually wrote Stuart takes a wider look at the Maya concepts of time and their underlying philosophy as we can best understand them The ancient Maya Stuart contends were worthy of study and admiration not because they were strange but because they were altogether human and they developed a compelling vision of time unlike any other civilization before or since Mending the Heart, Tending the Soul Gail Albert,2012-11-05 Although few of us know it ancient tradition says that the Bibles first five books can be read as an extended parable describing the personal spiritual journey In Mending the Heart Tending the Soul Gail Albert traces a universal path of psychological and spiritual growth as she takes us on this journey Offering interpretations contemplative meditations and her own experience in this clear practical and heartfelt guide to each section of scripture she brings the wisdom of the spiritual path into our daily lives as she travels with us each step of the way from Genesis through Deuteronomy Praise for Mending the Heart Tending the Soul Dr Albert has done a marvelous job in demystifying profound subjects in a way that opens gateways to hidden mysteries for readers of all backgrounds Highly recommended for all spiritually oriented readers Rabbi David Cooper author of God Is a Verb Albert takes us slowly contemplatively through the layers of meaning these stories offer We are brought into the mystery of scripture ever deeper For those who enter the journey these sacred stories take on new and potentially life changing vitality Brian C Taylor author of Becoming Christ Transformation through Contemplation
