The God-Image Lionel Corbett,2021-11-01 This book describes the development of images of God beginning in antiquity and culminating in Jung s notion of the Self an image of God in the psyche that Jung calls the God within Over the course of history the Self has been projected onto many local gods and goddesses and given different names and attributes These deities are typically imagined as existing in a heavenly realm but Jung s approach recalls them to their origins in the objective psyche This book shows how Jung s approach avoids many of the philosophical problems produced by traditional anthropomorphic images of God and describes the myriad symbolic ways in which the Self may appear independently of doctrinal images of God By focusing on the empirical psychological manifestations of the Self Jung s approach avoids arguments for and against the existence of a metaphysical God

Subversive Principles David H. Aaron,2024-10-31 Avot a tractate in the Mishnah c 220 CE is the single most studied and commented upon Jewish text outside the Hebrew Bible Commonly published as a stand alone volume with the title Pirke Avot Chapters of the Fathers or Ethics of the Fathers Avot is also included in Jewish prayer books to encourage group and home study in every form of Judaism A number of scholarly studies over the past three decades have

reconceptualized the historical purpose and stylistic character of tractate Avot which is unlike any other in the Mishnah. Some scholars have recognized that Avot's content reflects the ideological positions of an elitist fellowship originally formed according to paradigms established by Greco-Roman schools of philosophy. Subversive Principles furthers the argument that Avot was composed to facilitate the formation of such a fellowship by engaging the analytical insights of Pierre Bourdieu regarding symbolic language and other theorists elucidating the role of exchange theory in religions. This volume explores an ethics of reading and the matter of historical relativism as such concerns influence the historical critical interpretation of a canonical text.

The Old Testament in Its World Robert Gordon, Johannes de Moor, 2021-11-29 Discoveries in sites revealing the ancient cultures of the Near East and Greece have contributed much to a better understanding of the Old Testament. As new finds constantly add new information, this precious evidence has to be re-evaluated time and again. In this volume, members of the Society for Old Testament Study in the United Kingdom and Ireland as well as members of the Oudtestamentisch Werkgezelschap in the Netherlands and Belgium join forces to undertake this demanding task. Egyptian, Sumerian, Babylonian, Assyrian, Neo-Hittite, Aramaic and Greek texts are inspected in order to establish whether or not they are relevant to the understanding of the Hebrew Bible.

The Aesthetics of Violence in the Prophets Julia Myers O'Brien, Chris Franke, 2010-04-08 At the 2006 annual meeting of the Society of Biblical Literature, the Prophetic Texts in their Ancient Contexts section devoted a session to the theme The Aesthetics of Violence. Participants were invited to explore multiple dimensions of prophetic texts and their violent rhetoric. The results were rich, engaging discussion of violent images in ancient Near Eastern art and in modern film as well as advancing our understanding of the poetic skill required for invoking terror through words. This volume collects those essays as well as others especially commissioned for its creation. As a collection, they address questions that are at once ancient and distressingly modern: What do violent images do to us? Do they encourage violent behavior and/or provide an alternative to actual violence? How do depictions of violence define boundaries between and within communities? What readers can and should readers make of the disturbing rhetoric of violent prophets? Contributors include Corrine Carvahlo, Cynthia Chapman, Chris Franke, Bob Haak, Mary Mills, Julia O'Brien, Kathleen O'Connor, Carolyn Sharp, Yvonne Sherwood and Daniel Smith.

Christopher *Wilderness in Mythology and Religion* Laura Feldt, 2012-10-01 Wilderness is one of the most abiding creations in the history of religions. It has a long and seminal history and is of contemporary relevance in wildlife preservation and climate discourses. Yet it has not previously been subject to scrutiny or theorising from a cross-cultural study of religions perspective. What are the specific relations between the world's religions and imagined and real wilderness areas? The wilderness is often understood as a domain void of humans, opposed to civilization, but the analyses in this book complicate and question the dualism of previous theoretical grids and offer new perspectives on the interesting multiplicity of the wilderness and religion nexus. This book thus addresses the need for cross-cultural anthropological and history of religions analyses by offering in-depth case studies of the use and functions of

wilderness spaces in a diverse range of contexts including but not limited to ancient Greece early Christian asceticism Old Norse religion the shamanism Buddhism encounter in Mongolia contemporary paganism and wilderness spirituality in the US It advances research on religious spatialities cosmologies and ideas of wild nature and brings new understanding of the role of religion in human interaction with the world Theology after Postmodernity Tina Beattie, 2013-10-04 Theology after Postmodernity is a ground breaking study that has the capacity to transform the relationship between psychoanalytic theory and Christian theology Reading the theology of Thomas Aquinas in close engagement with the psychoanalytic theory of Jacques Lacan Tina Beattie shows how Thomism exerted a formative influence on Lacan and she also shows how a Lacanian approach can bring rich new insights to Thomas's theology A growing number of English speaking scholars now recognize the extent to which twentieth century French theorists and philosophers were influenced by medieval theology and there have been several studies of Jacques Lacan's Thomism However this is the first study published in English to bring a Lacanian feminist perspective to bear on the theology of Thomas Aquinas Focusing on the centrality of desire in Thomas's theology and Lacan's psychoanalytic theory Beattie follows Lacan along an overgrown and often hidden path through the changing configurations of desire gender and knowledge from their Aristotelian formation in the medieval universities to their fragmentation in the collapse of modernity's visions and values Beattie offers a penetrating critique of Thomas's Aristotelianism but she also excavates the mystical treasures within his theology This enables her to show how Thomas's God remains an unconscious but potent influence in the shaping of modern western thought and to ask what transformations might be needed in order to bring about a Thomism for our times Probing beneath the surface of Thomas's Summa Theologiae and other writings she brings to light the Other of Thomas's One God an incarnate maternal Trinity who emerges when Thomas's Aristotelian ontotheology is suspended and the more neglected aspects of his doctrinal and theological insights are allowed to emerge Lacan makes possible a renewed Thomism which offers a rich theology of creation incarnation and redemption capable of responding to some of the most urgent and far reaching challenges that questions of gender nature and God pose to Christian theological language in its classical and postmodern formations
