The Marxisthumanist Theory Of Statecapitalism:

The Marxist-Humanist Theory of State-capitalism Raya Dunayevskaya,1992-01-01 **The Philosophical Roots of Anti-Capitalism** David Black,2013-12-11 Alfred Sohn Rethel located the origin of philosophical abstraction in the false consciousness brought about by the new money economy of Greek Antiquity In the Enlightenment the conceptual barrier Kant put between phenomenal reality and the thing in itself expressed in Sohn Rethel s view the reified consciousness stemming from commodity exchange and the division of mental and manual labor Because Sohn Rethel saw the entire history of philosophy as branded by a timeless universal logic he dismissed Hegel s concept of totality as idealist and Hegel s critique of Kantian dualism as irrelevant to Marx s critique of political economy David Black in the title essay of *The Philosophical Roots of Anti Capitalism* suggests contra Sohn Rethel that Marx s exposition of the fetishism of commodities is historically specific to capitalist production and therefore cannot explain the origins of philosophy which Black shows to have involved various historical developments in Greek society and culture as well as monetization Just as Hegel s critique of Kantian formalism informs Marx s critique of capital Hegel s writings on how the proper organization of labor might abolish the barrier Aristotle put between production and the Realm of Freedom prefigure Marx s efforts to formulate of an alternative to capitalism Part Two Critique of the Situationist Dialectic Art Class Consciousness and Reification begins with Surrealism whose disappearance as a revolutionary artistic and social force Guy Debord and the Situationists sought to make up for by superseding the poetry of Art with the poetry of Life As well highlighting Debord s achievements in both theory and practice Black points to his philosophical shortcomings and relates these to Debord s later pessimistic assessment of the possibility of revolutionary class consciousness within globalizing capitalism The four essays in Part Three cover the Aristotelian anarchism the ambivalent legacy of Luk cs theory of reification Raya Dunayevskaya s Hegelian Marxist concept of absolute negativity as revolution in permanence and Gillian Rose s philosophical challenge to both postmodernism and traditional Marxism **The Concept of Other in Latin American Liberation** Eugene Walker Gogol,2002-01-01 In this exciting new study Eugene Gogol interweaves three strands that form the intellectual bedrock for the concept of the Other in the Latin American context Hegel s dialectic of negativity Marx s humanism and autochthonal emancipatory thought From this foundation the book explores the relation of liberatory philosophic thought to today s social and class movements Gogol considers the logic of capitalism on Latin American soil the ecological crisis in Latin America and the concept and practice of self liberation Still one of the most contested terrains of Latin American thought the Other has been of central concern for many luminary thinkers including Leopoldo Zea Octavio Paz and JosZ Carlos MariOtegui While these writers may not garner much publicity in the world press the highly public and ongoing struggles of the Zapatistas and Brazil s Landless Workers Movement demonstrate the continuing need to theorize the volatile nature of Latin American social reality Raya Dunayevskaya: Philosopher of Marxist-Humanism Eugene Gogol,2004-07-28 This study of the origins and development of

Marxist Humanism probes the philosophic organizational labors of Raya Dunayevskaya Beginning with her work as secretary to Leon Trotsky in exile in Mexico in 1937 38 the book explores her development of state capitalist theory in the 1940s and her thought dive into Hegel's Absolutes in the 1950s Each of Dunayevskaya's major works Marxism and Freedom 1958 Philosophy and Revolution 1973 and Rosa Luxemburg Women's Liberation and Marx's Philosophy of Revolution 1983 is examined inseparable from the objective world events and revolutionary subjectivity that unfolded from the 1940s into the 1980s The U S Russia super power rivalry the Sino Soviet Conflict the rise of the Afro Asian Latin American and East European revolts and revolutions together with the Black Dimension Women's Liberation anti war youth and rank and file labor struggles in the United States all in fusion with the re creation of the Hegelian and Marxian dialectic in the later half of the twentieth century formed the contours of Dunayevskaya's labors traced within this new work Her final unfinished and unpublished studies on Dialectics of Organization and Philosophy are examined in the concluding part **The**

Dunayevskaya-Marcuse-Fromm Correspondence, 1954-1978 Kevin Anderson, Russell Rockwell, 2012-01-01 This volume contains the correspondence during the years 1954 to 1978 between Marxist Humanist and feminist philosopher Raya Dunayevskaya 1910 87 and the Hegelian Marxist philosopher and social theorist Herbert Marcuse 1898 1979 and the psychologist and social critic Erich Fromm 1900 80 The exchanges show the deeply Marxist and humanist concerns of these theorists while also highlighting their significant differences on key issues in philosophy politics and psychology during the turbulent decades of the 1950s 1960s and 1970s C.L.R. James Kent Worcester, 1996-01-01 A fascinating immensely

readable biography of one of the most important radical intellectuals of the twentieth century **Raya Dunayevskaya's Intersectional Marxism** Kevin B. Anderson, Kieran Durkin, Heather A. Brown, 2020-12-10 Raya Dunayevskaya is one of the twentieth century's great but underappreciated Marxist and feminist thinkers Her unique philosophy and practice of Marxist Humanism as well as her grasp of Hegelian dialectics and the deep humanism that informs Marx's thought has much to teach us today From her account of state capitalism part of her socio economic critique of Stalinism fascism and the welfare state to her writings on Rosa Luxemburg Black and women's liberation and labor we are offered indispensable resources for navigating the perils of sexism racism capitalism and authoritarianism This collection of essays from a diverse group of writers brings to life Dunayevskaya's important contributions Revisiting her rich legacy the contributors to this volume engage with her resolute Marxist Humanist focus and her penetrating dialectics of liberation that is connected to Black labor and women's liberation and to struggles over alienation and exploitation the world over Dunayevskaya's Marxist Humanism is recovered for the twenty first century and turned as it was with Dunayevskaya herself to face the multiple alienations and de humanizations of social life The Ashgate Research Companion to Modern Theory, Modern Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting

the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation
