The Maya Scribe And His World:

The Maya scribe and his world Michael Douglas Coe,1977 *The Maya Scribe and His World* Michael D. Coe,1973-01-01 *Art of the Maya Scribe* Michael Coe,Justin Kerr,1998-02 To the four great calligraphic traditions ancient Egyptian East Asian Islamic and western European is now added a fifth that of the ancient Maya Long known but little understood Maya writing has now largely been deciphered leading to a new understanding of the Maya scribes and the society in which they lived This volume is the first to make full use of the latest research and the first to consider Maya writing both aesthetically and in terms of its meaning Michael D Coe begins by examining the origins and character of the script He then explores the world of the scribes and keepers of the holy books decoding their depiction in Maya art and describing the mediums in which they worked their tools and techniques Time Portal: the World of the First Maya Lia Machel,2011-11-11 Time Portal The World of the First Maya is a Guidebook on a journey that contains many startling Facts to show Where the Maya people started their voyage to the new world in MesoAmericaWho appeared to the natives built a City and became a God Why the Maya fashioned Time and the Calendar as circular not linearWhen settlers and traders from international roots came to live among them in One cultureRead about incredible archaeological discoveries to show that the Maya were adept at using techniques and materials unknown to the Western world for centuries Discover briefly the latter decades of the Maya civilization before the arrival of the Spaniards Illustrations by the Author give the reader a sense of what Mayans celebrated and how they were dressed to impress A Maya Universe in Stone Stephen Houston,2021-12-28 The first study devoted to a single sculptor in ancient America as understood through four unprovenanced masterworks traced to a small sector of Guatemala In 1950 Dana Lamb an explorer of some notoriety stumbled on a Maya ruin in the tropical forests of northern Guatemala Lamb failed to record the location of the site he called Laxtunich turning his find into the mystery at the center of this book The lintels he discovered there long since looted are probably of a set with two others that are among the masterworks of Maya sculpture from the Classic period Using fieldwork physical evidence and Lamb s expedition notes the authors identify a small area with archaeological sites where the carvings were likely produced Remarkably the vividly colored lintels replete with dynastic and cosmic information can be assigned to a carver Mayuy who sculpted his name on two of them To an extent nearly unique in ancient America Mayuy can be studied over time as his style developed and his artistic ambition grew An in depth analysis of Laxtunich Lintel 1 examines how Mayuy grafted celestial seasonal and divine identities onto a local magnate and his overlord from the kingdom of Yaxchilan Mexico This volume contextualizes the lintels and points the way to their reprovenancing and as an ultimate aim repatriation to Guatemala

Centuries of Silence Leonardo Ferreira,2006-10-30 The history of Latin American journalism is ultimately the story of a people who have been silenced over the centuries primarily Native Americans women peasants and the urban poor This book seeks to correct the record propounded by most English language surveys of Latin American journalism which tend to

neglect pre Columbian forms of reporting the ways in which technology has been used as a tool of colonization and the Latin American conceptual foundations of a free press Challenging the conventional notion of a free marketplace of ideas in a region plagued with serious problems of poverty violence propaganda political intolerance poor ethics journalism education deficiencies and media concentration in the hands of an elite Ferreira debunks the myth of a free press in Latin America The diffusion of colonial presses in the New World resulted in the imposition of a structural censorship with elements that remain to this day They include ethnic and gender discrimination technological elitism state and religious authoritarianism and ideological controls Impoverished afraid of crime and violence and without access to an effective democracy ordinary Latin Americans still live silenced by ruling actors that include a dominant and concentrated media Thus not only is the press not free in Latin America but it is also itself an instrument of oppression

Izapa Relief Carving Virginia Grady Smith,1984 This study analyzes the visual traits of Izapa style monuments to establish a stylistic inventory of visual elements and the rules for their use and compares other Late Pre Classic monuments of the Guatemala Chiapas highlands and Pacific slopes

The Ancient Maya Heather McKillop,2004-08-19 Thanks to powerful innovations in archaeology and other types of historical research we now have a picture of everyday life in the Mayan empire that turns the long accepted conventional wisdom on its head Ranging from the end of the Ice Age to the flourishing of Mayan culture in the first millennium to the Spanish conquest in the 16th century The Ancient Maya takes a fresh look at a culture that has long held the public s imagination Originally thought to be peaceful and spiritual the Mayans are now also known to have been worldly bureaucratic and violent Debates and unanswered questions linger Mayan expert Heather McKillop shows our

current understanding of the Maya explaining how interpretations of dirt archaeology hieroglyphic inscriptions and pictorial pottery are used to reconstruct the lives of royalty artisans priests and common folk She also describes the innovative focus on the interplay of the people with their environments that has helped further unravel the mystery of the Mayans rise and fall

Indigenous Cosmolectics Gloria Elizabeth Chacón, 2018-09-28 Latin America s Indigenous writers have long labored under the limits of colonialism but in the late twentieth and twenty first centuries they have constructed a literary corpus that moves them beyond those parameters Gloria E Chac n considers the growing number of contemporary Indigenous writers who turn to Maya and Zapotec languages alongside Spanish translations of their work to challenge the tyranny of monolingualism and cultural homogeneity Chac n argues that these Maya and Zapotec authors reconstruct an Indigenous literary tradition rooted in an Indigenous cosmolectics a philosophy originally grounded in pre Columbian sacred conceptions of the cosmos time and place and now expressed in creative writings More specifically she attends to Maya and Zapotec literary and cultural forms by theorizing kab awil as an Indigenous philosophy Tackling the political and literary implications of this work Chac n argues that Indigenous writers use of familiar genres alongside Indigenous language use of oral traditions and new representations of selfhood and nation all create space for expressions of cultural and political autonomy Chac n recognizes that Indigenous writers draw from universal literary strategies but nevertheless argues that this literature is a vital center for reflecting on Indigenous ways of knowing and is a key artistic expression of decolonization
