The Memorial Art Gallery An Introduction To The Collection:

Memorial Art Gallery Susan Dodge Peters, 1988 Memorial Art Gallery University of Rochester. Memorial Art Gallery, 1988 **The Life and Work of Martin Johnson Heade** Theodore E. Stebbins, Janet L. Comey, Martin Johnson Heade, Karen E. Quinn, 2000-01-01 Martin Johnson Heade was one of the most significant American painters of the nineteenth century creator of portraits history and genre pictures still lifes ornithological studies landscapes and marines and his own unique orchid and hummingbird compositions This book brings a perspective to Heade and his works presenting him as one of the most original and productive painters of his time Theodore Stebbins builds on his acclaimed 1975 study of Heade drawing on several newly discovered collections of Heade's letters and the painter's own Brazilian journal Stebbins tells of Heade's training and early career as an itinerant portraitist and discusses his move to New York where under the influence of Frederic E Church he began painting landscapes and seascapes He examines Heade's relationships with patrons and dealers writers and scientists and he sheds new light on Heade's trips to Brazil to the Central American tropics and to London And he describes Heade's move to Florida in 1883 which marked not his retirement but a final period of creativity that lasted until his death in 1904 The book includes not only an examination of Heade's life and works but also reproductions of all his 620 known paintings including nearly 250 that have been discovered since 1975 Seeing America University of Rochester. Memorial Art Gallery, 2006 A stunning full color volume that examines 82 pieces in the University of Rochester Memorial Art Gallery's American collection and their connections to American history culture literature and politics Seeing America is the first ever catalog of the University of Rochester Memorial Art Gallery's American collection Founded in 1913 the Memorial Art Gallery was created in conjunction with the University of Rochester so that it would function within a scholarly milieu yet at the same time perform service as a community museum From its conception it has been an ardent advocate for American art which so many counterpart institutions snubbed until at least the 1930s and more often until well after World War II in favor of European and Asian art The 336 page full color volume examines 82 objects and their connections to American history culture literature and politics The 73 articles present a running commentary on each piece by knowledgeable and thoughtful contemporary scholars and artists writing with expertise and insight ultimately presenting a new and deeper understanding that enhances the reader viewer's appreciation of the work The tour ranges from Colonial times to the twenty first century from Maine to Florida to the far West from mighty historical subjects to intimate byways from august figures and events to the humblest and most anonymous The diversity of American experience on display here reminds us that the best American art is inextricably bound up with the essential truths of American experience Carl W. Peters Richard H. Love, Carl William Peters, 1999 Throughout his life Peters depicted the ordinary places and people of America From Rochester to Rockport Peters made an amazingly coherent group of fascinating masterful American pictures **Richard Wagner and the Art of the Avant-Garde, 1860-1910** Donald A. Rosenthal, 2023-08-14 This book explores the responses of leading

European avant garde painters to the operas of Richard Wagner the most influential composer of the late nineteenth century The term avant garde represents a twenty first century evaluation of certain nineteenth century artists working in a variety of advanced styles rather than a phrase the artists applied to themselves Chapters are on individual artists or groups rather than an attempt to survey all of nineteenth century Wagnerian visual art They deal with paintings and drawings inspired by Wagner and his operas not with the composer s larger cultural influence through his writings and personal example Thus artists such as Vincent Van Gogh and Paul Gauguin who knew of Wagner s music and writings but did not depict scenes from his operas are not discussed in detail The emphasis is on the diverse effects Wagner had on the works of leading avant garde artists varying according to their personalities and stylistic interests The period beginning in the 1880s often associated with post Impressionism was characterized by a movement away from realist subject matter to more personal or imaginary themes a general intellectual trend of the fin de siècle Wagner s remote quasi historical or mythological subjects fit well with this escapist tendency in the art and culture of the time in part a return to the Romantic sensibility that was dominant in Wagner s youth Wagner s influence peaked in the period between his death in 1883 and 1900 though a few long lived artists continued their Wagnerian explorations from this era well into the early twentieth century There is no Wagner style in art yet Wagner s pervasive influence is immediately evident in these works Artists whose works are discussed include Eugène Delacroix Henri Fantin Latour Odilon Redon Max Klinger James Ensor Fernand Khnopff John Singer Sargent and Aubrey Beardsley among others The book features 60 art reproductions half of them in color

The Bone and Ivory Objects from Gordion Phoebe A. Sheftel, 2023-07-18 Gordion is a paramount site for understanding the culture of central Anatolia over more than 3 000 years from the Bronze Age to the Medieval period but is most renowned for its Iron Age horizon when it was royal capital of the mighty Phrygian kingdom The hundreds of bone and ivory artifacts excavated at Gordion constitute a highly diverse body of material and this publication presents one of the largest and most important assemblages of its kind in the Near East The artifacts give remarkable insight into the tools used in crafts and manufacturing processes a variety of decorative items the artistic developments among local craftspeople as well as indications of trading connections with other regions to the east and west Ivory was a highly valued material used for decorative pieces in many areas around the eastern Mediterranean The objects from Gordion are a significant addition to this corpus and illustrate both widely dispersed features common in other contemporary ivory working centers as well as the singular motifs and styles that developed in the Phrygian milieu A unique assemblage of ivory horse trappings from the Early Phrygian Citadel are an important illustration of this cultural confluence While bone was primarily used for strictly utilitarian objects there are numerous pieces that show this lowly material could be used for high quality items such as inlays set into the wooden furniture exceptionally attested at Gordion Even the sheep knuckle bone astragal decorated with incised designs and letters
