The Sufi Message of Hazrat Inayat Khan: The Gathas Hazrat Inayat Khan, 2020-09-28 There is a remarkable phrase in the Bible here it says Eat My flesh and drink My blood says Christ What does He mean by saying this He means in the first place that what a living being loves most is his food what he loves most he eats It has been proved in ferocious and dreadful famines by people eating their own children that food is dearer than their own child The word of Christ therefore Find out what it is in Me that you love which may become your nourishment which may become your food It is not this My flesh and blood this will not be sufficient to satisfy your appetite There is another part of My being which is in abundance and can nourish My numberless devotees Therefore before trying to eat My flesh and blood try to find out on what plane I really exist and what is My true being The lives of all the great saints show that not only their adversaries and opponents but also their near and dear friends have proved to be among their worst enemies There is a creature which loves its mate so much that it eats it Now as to the question what it is that Christ speaks of as his flesh and blood His flesh is the knowledge of God and His blood is the love of God because it is love that has a tendency so to speak to excite the circulation and it is knowledge which has the tendency to strengthen making man firm of which flesh is the symbol One thing without the other would be abnormal For instance flesh without blood or blood without flesh both are not normal conditions What gives normal health to the body and to the soul is flesh and blood both In the religious custom of the sacrament of bread and wine it is this secret which is symbolically expressed

[The Message of Acts in Codex Bezae \(vol 2\)](#) Josep Rius-Camps, Jenny Read-Heimerdinger, 2006-06-20 This final volume in the four volume commentary The Message of Acts in Codex Bezae continues the comparison of the message of Acts transmitted by Codex Bezae with that of the more familiar Alexandrian text represented by Codex Vaticanus For each section of Acts there is a side by side translation of the Bezan and Alexandrian manuscripts followed by a critical apparatus and finally a commentary that explores the variations in the message of the two texts Working from this strong methodological foundation Jenny Read Heimerdinger and Josep Rius Camps conclude that the Bezan text is the earlier of the two In the process they provide an illuminating and
