The Military In African Politics:

The Military in African Politics William Gutteridge, 2023-12-20 Originally published in 1969 this book assesses the origin and nature of the 20th Century trend towards military intervention in the politics of African states It begins by examining the natures of African armies and their inheritance from the colonial period It scrutinizes the Nigerian and Ghana coups of 1966 and aspects of the East African mutinies in 1964 as well as events in certain French territories including Gabon and Dahomey The effect of foreign military aid on the role of the armed forces in Africa is analysed including the subtle influence of overseas military experience The problems facing army officers when they seize the reins of government are examined along with the difficulties which they encounter when attempting to reinstitute civilian rule Throughout the book the qualities which enable armies to intervene in politics are reviewed and related to those of the other institutions of African society [The Military in African Politics](#) Johns Hopkins University. School of Advanced International

Studies, 1987-05-15 The concern of this book is with military rulers as political actors in contemporary Africa Much of Africa has been under military rule during the quarter century since a majority of the countries attained their political independence Yet studies of military rule have focused on when and how to predict the occurrence of military rule and on distinguishing between military and civilian rule The concern of the contributors to this volume by contrast is the political behavior of officers once in power how they have ruled what has been the significance of military rule on the character of political systems in the affected countries and how problems of regime succession have been addressed by military rulers

Preface **The Military and Politics in Africa** George Klay Kieh, Pita Ogaba Agbese, 2004 Unlike other publications on the military and politics in Africa which focus on one or two aspects of the involvement of the military in African politics this text provides a comprehensive evaluation of the various aspects of military intervention Such a collection provides useful insights into the military's role in African politics from initial intervention to the performance of military regimes as well as to disengagement reengagement consolidation and finally the offering of ways to control the problem of intervention

Guarding the Guardians Mathurin C. Hounnikpo, 2016-04-22 The relationship between civil society and the armed forces is an essential part of any polity democratic or otherwise because a military force is after all a universal feature of social systems Despite significant progress moving towards democracy among some African countries in the past decade all too many African militaries have yet to accept core democratic principles regulating civilian authority over the military This book explores the theory of civil military relations and moves on to review the intrusion of the armed forces in African politics by looking first into the organization and role of the army in pre colonial and colonial eras before examining contemporary armies and their impact on society Furthermore it revisits the various explanations of military takeovers in Africa and disentangles the notion of the military as the modernizing force Whether as a revolutionary force as a stabilizing force or as a modernizing force the military has often been perceived as the only organized and disciplined group with the necessary skills

to uplift newly independent nations The performance of Africa s military governments since independence however has soundly disproven this thesis As such this study conveys the necessity of new civil military relations in Africa and calls not just for civilian control of the military but rather a democratic oversight of the security forces in Africa **Military**

Involvement in African Politics Sam C. Ukpabi,1972 *The Military and African Politics* Laing Gray Cowan,Columbia University. Institute of African Studies,1967* *African Military History and Politics* A. B. Assensoh,Yvette M.

Alex-Assensoh,2001 Africa s former colonial masters including Great Britain France Portugal and Spain trained members and leaders of the various colonial armed Forces to be politically non partisan Yet the modern day armed forces on the continent made up of the army police air force and navy have become so politicized that many countries in Africa are today ruled or have already been ruled by military dictators through coups d etat occasionally for good reasons as this book points out The authors trace the historico political evolution of these events and their implications for Africa where the military incursions into partisan politics are seemingly unending Military Power and Politics in Black Africa Simon Baynham,2021-05-11 First published in 1986 Military Power and Politics in Black Africa explores many themes that concerned military power and politics in sub Saharan Africa at the time of publication Adopting a thematic approach the book considers the nature of both intervention and disengagement and looks at the relationship between civilian and military institutions The final chapters put forward arguments for the importance of foreign intervention in the politics and civil military relations of African states

African Politics Gus Liebenow,1986-09-22 A well balanced presentation especially notable for its succinct review of the factors currently controlling the South African political situation The Nation authoritative work Foreign Affairs broad enough in its reach to be useful to teaching in interdisciplinary African studies courses for undergraduates Perspective Gus Liebenow has produced a winner eminently suitable for classroom use with enough substance to be of interest to both teachers and students Africa Today A sympathetic but hardheaded analysis of the crisis issues common to the continent as a whole the struggle for national identity poverty the unresolved festering issue of white supremacy in Southern Africa the problem of political community in the African urban setting and the struggle for popular control over government **The Performance of Soldiers as Governors** Isaac James Mowoe,1980-01
