The Politics Of Economic Reform In The Soviet Union:

The Politics of Economic Reform in the Soviet Union Abraham Katz, 1974 *The Politics of Economic Reform in the Soviet Union* Todd S. Foglesong, 1986 *Radical Reform in Yeltsin's Russia* Julie Nelson, Irina Y. Kuzes, 2016-09-16 This work examines the political and organizational factors that have shaped Russian economic reforms since the demise of the Soviet Union. The author draws on a variety of sources including interviews conducted in Ekaterinburg, Voronezh, and Smolensk to present a multilayered portrait of the successes, failures, and unintended consequences of the reforms. The book covers the consequence of dissolving the USSR and Russia's role in the CIS, political transition, economic reform, assessment of the political and social implications of neo-liberal monetarism and of the voucher privatisation programme, and both regional and federal structures and processes.

The Transformation Of Communist Systems Bernard Chavance, Charles Hauss, Mark Selden, 2019-06-26 In the confrontation between the two main economic systems that has marked the twentieth century, capitalism has been declared the winner by default over its adversary socialism. Today, establishing a market economy has become the primary goal of the formerly socialist countries. The history of economic reform helps explain this remarkable turning point. Attempts to improve the old centralized system by expanding enterprise autonomy in Poland, the Soviet Union, and East Germany, and more radical reforms that limited the role of central planning in Yugoslavia, Czechoslovakia, Hungary, and China, encountered social and political obstacles or had unexpected and undesired effects. During the 1980s, the idea of a socialist market economy, which had been seen as a third way between capitalism and centralized socialism, was abandoned as economists gradually came to support a free market rather than the dogma of planning. Through a comparative and historical analysis of change in socialist and post-socialist systems, this timely and original book clarifies the policies and pitfalls in this extraordinary transition. Bernard Chavance provides a succinct introduction and analysis of the politics and economics of Eastern Europe from the creation of the Stalinist system in the Soviet Union through what he argues have been three major waves of reform since the 1950s to the dismantling of most socialist governments in the 1990s. Exploring the link between the one-party regime and the growing rigidity of socialist economic systems, the author analyzes the failure of both incremental and radical reforms to adapt to new economic challenges, thus leading to the ultimate collapse of communist regimes in Europe.

The Political Logic of Economic Reform in China Susan L. Shirk, 2023-04-28 In the past decade, China was able to carry out economic reform without political reform, while the Soviet Union attempted the opposite strategy. How did China succeed at economic market reform without changing communist rule? Susan Shirk shows that Chinese communist political institutions are more flexible and less centralized than their Soviet counterparts were. Shirk pioneers a rational choice institutional approach to analyze policy making in a non-democratic authoritarian country and to explain the history of Chinese market reforms from 1979 to the present. Drawing on extensive interviews with high-level Chinese officials, she pieces together detailed histories of economic reform policy decisions and shows how the political logic of Chinese

communist institutions shaped those decisions Combining theoretical ambition with the flavor of on the ground policy making in Beijing this book is a major contribution to the study of reform in China and other communist countries This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994 In the past decade China was able to carry out economic reform without political reform while the Soviet Union attempted the opposite strategy How did China succeed at economic market reform without changing communist rule Susan Shirk shows that China
