village community and to trace the fates of individual men and women over a long stretch of time While his earlier book *The Raj Gonds of Adilabad Myth and Ritual* concentrated mainly on the Gonds mythology and ritual practices the present volume devotes more space to a detailed analysis of the operation of social forces and the traditional structure of a society characterised by a high degree of cohesion In 1979 the Gonds were once again being subjected to the pressure of outside forces and Professor von F rer Haimendorf lays special emphasis on the analysis of the process of social change forced upon the Gonds by settlers from outside The last part of the book thus represents a case history of the transformation of a tribal society under the impact of modernisation and relentless population growth
