The House That God Built Zebedee King, 2016-02-27 By looking at the nightly news and simply observing for themselves the denigration of homes and communities across our country many would agree that family foundations are cracking and shifting out of place This has resulted in untold devastation within the home and our other social systems therefore many households and lives have simply given way and collapsed under the weight of a host of societal pressures Many believe that a generation of social experimentation along with our cultures fixation at redefining virtually every foundational institution especially the first human institution marriage are responsible for placing the family and society on very shaky ground indeed leaving a very dubious moral and economic legacy for successive generations When cracks begin to appear upon the walls of a house it may indicate a shifting or damaged foundation which may indicate poor foundation work As a result builders typically reexamine the blueprint the master plan to determine the manner and materials with which the house and foundations built in order to pinpoint and repair a weak or damaged foundation It is the authors conviction that in many households within society weak or faulty spiritual and moral foundations have been laid resulting in the cultural cataclysm we witness throughout our land In his book The House that God Built Gods Master Plan for Marriage and His Blueprint for Blessing Book One of his Strong Foundation for Strong Families series the author discusses the need for a RE Vision of marriage and the family but not by redefining replacing or removing these honorable foundations and pillars which have supported societies from the beginning of time Rather by employing the word RE Vision he calls for a refocus a fresh new look at Gods original design for the marriage and family This plan is found in Gods Holy Word specially the first two chapters of the Book of Genesis because this he feels is where marriage family and social systems began Therefore the book is a thorough exposition of the first chapters of Genesis which explore the motivations and the methods through which God Himself built His house the heavens and the earth This study provides keen spiritual and

practical insights as to how we can build our homes according to God's plans so as to receive His best blessings upon our homes and upon our communities *The American Directory of Writer's Guidelines* Brigitte M. Phillips, Susan D.

becoming Christians new believers often end up paralyzed They become overwhelmed trying to master complicated doctrines

frustrated by a large list of rules for policing their lives and bewildered by a new and strange vocabulary. Even worse, there are few books offering simple and clear advice to guide a Christian's first spiritual steps that are written in common contemporary language. Until now. In *How to Follow Jesus*, Craig Springer, executive director of Alpha USA, one of America's most effective evangelism movements, explodes numerous myths surrounding the Christian faith that create unnecessary obstacles to growth, including illustrating that sin and temptation are not the greatest threat to a flourishing faith; forgiveness means going through rather than around our feelings; and how disappointment in the church may be the essential step in growing a foundation for life-changing community. Sharing personal stories from his own journey to a mature faith, Springer sets readers at ease and offers them practical, easy-to-implement advice for following Jesus. *Destined to become a timeless classic*, *How to Follow Jesus* is a must-read for new and returning Christians.
