Rudolf Arnheim

The Power Of The Center A Study Of Composition In The Visual Arts:

The Power of the Center Rudolf Arnheim, 2009-10-19 Rudolf Arnheim has been known since the publication of his groundbreaking *Art and Visual Perception* in 1974 as an authority on the psychological interpretation of the visual arts. Two anniversary volumes celebrate the landmark anniversaries of his works in 2009. In *The Power of the Center*, Arnheim uses a wealth of examples to consider the factors that determine the overall organization of visual form in works of painting, sculpture, and architecture. *The Dynamics of Architectural Form* explores the unexpected perceptual consequences of architecture with Arnheim's customary clarity and precision.

The Power of the Center Rudolf Arnheim, 1983-01-01 The tension between two systems for understanding and picturing space: the concentric and the Cartesian is regarded by the author as the key to composition in painting, sculpture, and architecture.

The Power of the Center Rudolf Arnheim, 1982

The Power of the Center Rudolf Arnheim, 1988 The tension between two systems for understanding and picturing space: the concentric and the Cartesian is regarded by the author as the key to composition in painting, sculpture, and architecture.

The Power of the Center Rudolf Arnheim, 1988-03-25 Arnheim shows how compositional form makes sense only when it utilizes visual symbols of the life experience that makes art meaningful.

Sacred Communities Dean Phillip Bell, 2021-10-01 We all live in a community and it was no different for the Jews and Christians of medieval Germany or was it? This book draws together disparate threads of Christian and Jewish communal development in an effort to give a deeper understanding to the complex tapestry of Jewish and Christian interaction. In the broad examination presented herein, it is possible to compare the general transformations that affected Jews and Christians both as residents of a shared German society and as residents of their own separate communities. Jews and Christians interacted in a variety of ways in numerous settings and at a multitude of levels that defy simple categorization. To label late medieval Germany a period of crisis is too simplistic; the Reformation should not categorically be viewed as the central development in the shift between medieval and early modern times. This book seeks to recontextualize the world of Jewish and Christian relations by bringing together divergent sources not often taken together but equally important to inform one another and offer a fuller picture of Jewish and Christian notions of each other and themselves than has been possible up to this point.

Projecting a Camera Edward Branigan, 2013-08-21 In *Projecting a Camera*, film theorist Edward Branigan offers a groundbreaking approach to understanding film theory. Why, for example, does a camera move? What does a camera know? And when does it know it? What is the camera's relation to the subject during long static shots? What happens when the screen is blank? Through a wide-ranging engagement with Wittgenstein and theorists of film, he offers one of the most fully developed understandings of the ways in which the camera operates in film. With its thorough grounding in the philosophy of spectatorship and narrative, *Projecting a Camera* takes the study of film to a new level. With the care and precision that he brought to *Narrative Comprehension and Film*, Edward Branigan maps the ways in which we must understand the role of the camera, the meaning of the frame, the role

of the spectator and other key components of film viewing By analyzing how we think discuss and marvel about the films we see *Projecting a Camera* offers insights rich in implications for our understanding of film and film studies **The Unification of the Arts** Steven Brown,2021-11-25 What are the arts What functions do the arts serve in human life This book presents the first fully integrated cognitive account of the arts that unites visual art theatre literature dance and music into a single framework with supporting discussions about creativity and aesthetics **The Aesthetic Mind** Elisabeth Schellekens,Peter Goldie,2011-10-13 The Aesthetic Mind breaks new ground in bringing together empirical sciences and philosophy to enhance our understanding of art and the aesthetic An eminent international team of experts explores the roles of emotion imagination empathy and beauty in this realm of human experience discussing visual and literary art music and dance *Robert Indiana* Susan Elizabeth Ryan,Robert Indiana,2000-01-01 The author argues that Indiana s strident visual language emerges from his tendency to recast his life in story and verse a fact that unlocks complex and secret tissues of figurative meaning within the deceptively simple canvases By illuminating the enigmas in Indiana s word and image combinations she helps to explain the longevity of LOVE and its influence on a later generation of artists BOOK JACKET
