

THE PRESIDENT AS PRISONER

**A Structural Critique of the
Carter and Reagan Years**

William F. Grover

The President As Prisoner A Structural Critique Of The Carter And Reagan Years

D Keegan

The President As Prisoner A Structural Critique Of The Carter And Reagan Years:

The President as Prisoner William F. Grover, 1989-07-15 This book focuses not on the Constitutional balance of power between Congress and the White House a focus that restricts analysis to questions of means but on the more unsettling and often unexamined question of the ends of the presidency and American public policy It offers a structural theory which links what a president can do to the underlying interests behind and ideology of the capitalist state Structural theory insists upon an encounter between theories of the state and theories of the presidency and in so doing steers the field of presidential studies into largely uncharted territory Grover explores the tradeoffs and limitations encountered by Presidents Carter and Reagan as they pursued the goals of economic prosperity and national security He argues that the limitations imposed on the presidency are more complicated than the personal deficiencies of a particular person Such structural limitations Grover notes are not merely constitutional but economic and statist His analogy of the president as prisoner in this larger sense is compelling

Jimmy Carter, American Moralist Kenneth E. Morris, 1997-10-01 In the first full scale biography of America's 39th president since 1980 Kenneth Morris shows readers that any conclusions about Carter's leadership and the adequacy of his challenges as a president cannot ignore the moral quandary that vexed the nation 35 photos

Powersharing Shirley Anne Warshaw, 1996-04-25 The complex relationship between the White House staff and the presidential cabinet has changed dramatically in the last 25 years During that time the White House has emerged as the center of power in the domestic policy process leaving the departments with a diminishing role in initiating major policy proposals This book focuses on powersharing between the White House and the cabinet in the policy process and examines how and why the White House has become the dominant player relegating the departments to implementation rather than design of key initiatives Powersharing begins with an overview of the role of the modern cabinet and a discussion of the cabinet's emergence in a policy role and then in a chapter by chapter analysis of presidential administrations from Nixon through Clinton chronicles the shifting balance of power from the departments to the White House in both the design and management of the nation's major domestic programs The book concludes with an assessment of the prospects for effective powersharing between the cabinet and the White House staff

Scripted for Change Victoria A. Farrar-Myers, 2007-06-25 Without a doubt the institution of the presidency today is quite different from the one that existed throughout the early part of the nation's history despite only minimal revisions to its formal constitutional structure The processes by which the institution of the presidency has developed have remained largely unexamined however Victoria A Farrar Myers offers a carefully crafted argument about how changes in presidential authority transform the institution Her analysis tracks interactions between the president and Congress during the years 1881-1920 in three policy areas the commitment of troops the creation of administrative agencies and the adoption of tariff policy Farrar Myers shows that Congress and the president have in fact created a coordinated script that provides the basis of precedent for future interactions under similar

circumstances Changes in presidential authority she argues are the residual of everyday actions which create new shared understandings of expected behavior As these understandings are reinforced over time they become interwoven into the institution of the presidency itself Farrar Myers's analysis will offer theoretical guidance for political scientists understanding of the development of presidential authority and the processes that drive the institutionalization of the presidency and will provide historians with a nuanced understanding of the institution from the period between the end of Reconstruction and the Progressive era

Kennedy vs. Carter Timothy Stanley, 2010-03-02 The late Edward Kennedy's liberal credentials were unimpeachable and perhaps never as much on display as when he challenged incumbent Jimmy Carter for the presidency Most accounts of modern U S politics view Ronald Reagan's landslide election in 1980 as a conservative realignment of the American public and Kennedy's defeat in the Democratic primaries as the last hurrah of New Deal liberalism Now an astute observer of the American scene reexamines those primary battles to contend that Kennedy's insurgent campaign was more popular than historians have presumed and was defeated only by historical accident and not by its perceived radicalism Timothy Stanley takes a new look at how Jimmy Carter alienated his own supporters why Ted Kennedy ran against him what the Kennedy campaign has to say about America in the 1970s and whether or not the 1980 election really was a turning point in electoral history He tells the story of a struggle for the soul for a party bitterly divided over how to respond to economic decline cultural upheaval and humiliation overseas And in the telling he offers both a comprehensive narrative of the primaries and a joint biography of the two men who struggled for their party's leadership Stanley's comprehensive research draws on more than a dozen archives as well as interviews with nearly thirty key historical players including George McGovern Walter Mondale Gary Hart and Mike Dukakis and also makes creative use of polling data to recreate the ebb and flow of the election season What emerges is not only the story of a campaign but also a revisionist history of a misunderstood decade one most often defined by religious reawakening chronic inflation and the tax revolt that revived Republican fortunes Yet Kennedy's crusade to rebuild the ailing New Deal coalition of ethnic minorities blue collar conservatives and firebrand liberals was popular enough to suggest that Americans were neither liberal nor conservative but instead anxious angry and desperate for leadership from any direction Kennedy vs Carter provides a unique analysis of how support shifted from Carter to Reagan right up to election day with Reagan elected largely because he was not the unpopular incumbent By showing how Kennedy was a far more popular politician than orthodox historiography has suggested Stanley argues for a more nuanced understanding of what really determines political outcomes and a greater appreciation for the enduring popularity of American liberalism

The Unsustainable Presidency W. Grover J. Peschek, 2014-12-16 The Unsustainable Presidency develops a structural theory of the office by challenging and redefining the twin imperatives upon which the modern chief executive was constructed and by applying the theory to the three most recent presidents Bill Clinton George W Bush and Barack Obama

Working in the World Robert A. Strong, 2000-01-01 In nine detailed case studies based on interviews with

participants and on recently released documents in the Carter presidential library Robert Strong carefully examines how the thirty ninth president of the United States addressed and accomplished the work of foreign policy during his term Working in the World effectively argues for substantial reevaluation of the conventional wisdom about Carter s weak foreign policy performance and questions how we should formulate our earliest appraisals of presidential success in the conduct of foreign affairs Executive Leadership in Anglo-American Systems Colin Campbell,Margaret Jane Wyszomirski,2010-11-23

Eighteen distinguished scholars and practicing officials address the problems of executive leadership in the United States Britain Canada and Australia Individual essays focus on cabinet government domestic military and economic advisers executive agencies and personal staff for presidents and prime ministers Provocative comparisons between and among systems make the discussions particularly insightful **Beyond Persuasion** Matthew Robert Kerbel,1991-09-03 Beyond Persuasion is the first systematic multi administration study of presidential power and influence Moving beyond Richard Neustadt s Presidential Power this book offers a model of presidential power that incorporates personal bargaining effectiveness with the structural imperative of efficient White House organization Drawing upon a systematic analysis of presidents from Johnson to Reagan Kerbel finds common patterns of organizational structure and bargaining behavior in their successful domestic policy initiatives The path to power is detailed through comparative insights on the Carter and Reagan administrations which prove to be remarkably similar in critical respects despite popular perceptions to the contrary Kerbel then considers the relative importance of presidential behavior to contextual factors beyond the president s control offering insight into the way changes in economic and political conditions have hampered or improved recent presidential efforts despite presidential attempts to organize and persuade Analysis includes the first year of the Bush administration and the possibilities for power in the contemporary presidency are discussed Critical Theories of the State Clyde W.

Barrow,1993-03-01 Critical Theories of the State is a clear and accessible survey of radical perspectives on the modern state By focusing on Marxist theory and its variations particularly as applied to advanced industrial societies and contemporary welfare states Clyde W Barrow provides a more extensive and thorough treatment than is available in any other work Barrow divides the methodological assumptions and key hypotheses of Marxist Neo Marxist and Post Marxist theories into five distinct approaches instrumentalist structuralist derivationist systems analytic and organizational realist He categorizes the many theorists discussed in the book including such thinkers as Elmer Altvater G William Domhoff Fred Block Claus Offe and Theda Skocpol according to their concepts of the state s relationship to capital and their methodological approach to the state Based on this survey Barrow elaborates a compelling typology of radical state theories that identifies with remarkable clarity crucial points of overlap and divergence among the various theories Scholars conducting research within the rubric of state theory political development and policy history will find Critical Theories of the State an immensely valuable review of the literature Moreover Barrow s work will make an excellent textbook for undergraduate and graduate courses in political

science and sociology and can also be used by those teaching theory courses in international relations history and political economy

Unveiling the Power of Verbal Beauty: An Emotional Sojourn through **The President As Prisoner A Structural Critique Of The Carter And Reagan Years**

In some sort of inundated with displays and the cacophony of immediate communication, the profound power and psychological resonance of verbal art frequently disappear in to obscurity, eclipsed by the constant onslaught of noise and distractions.
