The Aztec Image In Western Thought:

The Aztec Image in Western Thought Benjamin Keen, 1990 Encompass the sweep of changing Western thought on the Aztecs from Cortes to the present *Amerindian Images and the Legacy of Columbus*, 1992 Ornamental Nationalism Seonaid Valiant, 2017-09-25 In *Ornamental Nationalism* Archaeology and Antiquities in Mexico 1876 1911 Seonaid Valiant examines the Porfirian government's reworking of indigenous particularly Aztec images to create national symbols She focuses in particular on the career of Mexico's first national archaeologist Inspector General Leopoldo Batres He was a controversial figure who was accused of selling artifacts and damaging sites through professional incompetence by his enemies but who also played a crucial role in establishing Mexican control over the nation's archaeological heritage Exploring debates between Batres and his rivals such as the anthropologists Zelia Nuttall and Marshall Saville Valiant reveals how Porfirian politicians reinscribed the political meaning of artifacts while social scientists both domestic and international struggled to establish standards for Mexican archaeology that would undermine such endeavors Aztec Philosophy James Maffie, 2014-03-15 In *Aztec Philosophy* James Maffie shows the Aztecs advanced a highly sophisticated and internally coherent systematic philosophy worthy of consideration alongside other philosophies from around the world Bringing together the fields of comparative world philosophy and Mesoamerican studies Maffie excavates the distinctly philosophical aspects of Aztec thought Aztec Philosophy focuses on the ways Aztec metaphysics the Aztecs understanding of the nature structure and constitution of reality underpinned Aztec thinking about wisdom ethics politics and aesthetics and served as a backdrop for Aztec religious practices as well as everyday activities such as weaving farming and warfare Aztec metaphysicians conceived reality and cosmos as a grand ongoing process of weaving theirs was a world in motion Drawing upon linguistic ethnohistorical archaeological historical and contemporary ethnographic evidence Maffie argues that Aztec metaphysics maintained a processive transformational and non hierarchical view of reality time and existence along with a pantheistic theology Aztec Philosophy will be of great interest to Mesoamericanists philosophers religionists folklorists and Latin Americanists as well as students of indigenous philosophy religion and art of the Americas Blood Lines Sheila Marie Contreras, 2009-07-21 2009 Runner up Modern Language Association Prize in United States Latina and Latino and Chicana and Chicano Literary and Cultural Studies *Blood Lines* Myth Indigenism and Chicana o Literature examines a broad array of texts that have contributed to the formation of an indigenous strand of Chicano cultural politics In particular this book exposes the ethnographic and poetic discourses that shaped the aesthetics and stylistics of Chicano nationalism and Chicana feminism Contreras offers original perspectives on writers ranging from Alurista and Gloria Anzald a to Lorna Dee Cervantes and Alma Luz Villanueva effectively marking the invocation of a Chicano indigeneity whose foundations and formulations can be linked to U S and British modernist writing By highlighting intertextualities such as those between Anzald a and D H Lawrence Contreras critiques the resilience of primitivism in the Mexican borderlands She questions established cultural

perspectives on the native which paradoxically challenge and reaffirm racialized representations of Indians in the Americas In doing so Blood Lines brings a new understanding to the contradictory and richly textured literary relationship that links the projects of European modernism and Anglo American authors on the one hand and the imaginary of the post revolutionary Mexican state and Chicano a writers on the other hand Images of Mithra Philippa Adrych,Robert Bracey

(Writer on coins),Dominic Dalglish,Stefanie Lenk,Rachel Wood,2017 This work presents six case studies of objects from different periods and regions of antiquity that are labelled by variations of the name Mithra including the Roman Mithras Persian Mihr and Bactrian Miiro Each chapter places each object in its original context before questioning its role in religious ritual tradition and belief **Mapping Nature across the Americas** Kathleen A. Brosnan,James R.

Akerman,2021-10-19 Maps are inherently unnatural Projecting three dimensional realities onto two dimensional surfaces they are abstractions that capture someone s idea of what matters within a particular place they require selections and omissions These very characteristics however give maps their importance for understanding how humans have interacted with the natural world and give historical maps especially the power to provide rich insights into the relationship between humans and nature over time That is just what is achieved in Mapping Nature across the Americas Illustrated throughout the essays in this book argue for greater analysis of historical maps in the field of environmental history and for greater attention within the field of the history of cartography to the cultural constructions of nature contained within maps This volume thus provides the first in depth and interdisciplinary investigation of the relationship between maps and environmental knowledge in the Americas including for example stories of indigenous cartography in Mexico the allegorical presence of palm trees in maps of Argentina the systemic mapping of US forests and the scientific platting of Canada s remote lands **The Aztecs**

Frances F. Berdan,2021-06-17 In this rich and surprising book Frances F Berdan shines fresh light on the enigmatic ancient Aztecs She casts her net wide covering topics as diverse as ethnicity empire building palace life etiquette origin myths and human sacrifice While the Aztecs are often described as stone age their achievements were remarkable They constructed lofty temples and produced fine arts in precious stones gold and shimmering feathers They crafted beautiful poetry and studied the sciences They had schools and libraries entrepreneurs and money and a bewildering array of deities and dramatic ceremonies Based on the latest research and lavishly illustrated this book reveals the Aztecs to have created a civilization of sophistication and finesse *Historical Geography* ,2004 **The Lives of Images** Peter Mason,2001

Examines the history of European representations of non European peoples
