Basque Immigrants and Nevada's Sheep Industry Iker Saitua, 2019-03-20 Basque Immigrants and Nevada's Sheep Industry is a rich and complex exploration of the history of Basque immigration to the rangelands of Nevada and the interior West It looks critically at the Basque shepherders in the American West and more broadly at the modern history of American foreign relations with Spain after the Second World War Between the 1880s and the 1950s the western open range sheep industry was the original economic attraction for Basque immigrants This engaging study tracks the development of the Basque presence in the American West providing deep detail about the shepherders history native and local culture the challenges they faced and the changing conditions under which the Basques lived and worked Saitua also shows how Basque immigrant shepherders went from being a marginalized labor group to a desirable high priced workforce in response to the constant demand for their labor power As the twentieth century progressed the geopolitical tide in America began to change In 1924 the Restrictive Immigration Act resulted in a truncated labor supply from the Basque Country in Spain During the Great Depression and the Second World War the labor shortage became acute In response Senator Patrick McCarran from Nevada lobbied on behalf of his wool growing constituency to open immigration doors for Basques the most desirable laborers for tending sheep in remote places Subsequently Cold War international tensions offered opportunities for a reconciliation between the United States and Francisco Franco despite Spain's previous sympathy with the Axis powers This fresh portrayal shows how Basque immigrants became the backbone of the sheep industry in Nevada It also contributes to a wider understanding of the significance of Basque immigration by exploring the role of Basque agricultural labor in the United States the economic interests of Western ranchers and McCarran's diplomacy as catalysts that eventually helped bring Spain into the orbit of western democracies

The Toughest Kid We Knew Frank Bergon, 2020-06-15 Frank Bergon's newest work is a thoughtful exploration of the ways that memories of random childhood events become unexpected revelations about life in the West In many senses this project is a personalized version of Two Buck Chuck The Marlboro Man where Bergon explored the ways that a multiethnic and multiracial society shaped and continues to shape the day to day lived realities of the residents and communities of the San Joaquin Valley Bergon's latest book creation however is more elegiac in tone paying tribute to ranching and farming lives that are disappearing under suburban and exurban sprawl industrial farming and white collar job growth
