## **The Complete Guide To Factorymade Houses:**

*The Complete Guide to Factory-made Houses* Arthur Martin Watkins,1984      Complete Guide to Factory Made  
Watkins,1980-03-28      20X10 Segue House□ Randy Sovich,      *Energy-efficient Factory-built Houses* ,1989      *Designing a*  
*Place Called Home* James Wentling,2012-12-06 are often lined with garages in front of houses that are clearly more  
internalized in design some even taking on a fortress like appearance Today s new homes are technically superior in  
construction i e they are more energy efficient weather resistant and maintenance free However they also seem to lack the  
warmth and charm of prewar homes for which more construction dollars were spent on quality veneers buUt in features and  
other human scale details The postwar need for massive amounts of affordable housing for returning GIs helped to encourage  
buUding practices that could reduce on site labor and material costs in houses The accommodation of the automobile cost  
cutting movements and a variety of other trends caused a gradual decline in the human social and emotional qualities of  
postwar residential architecture This book will attempt to look at the issues and choices facing today s residential designers  
and home buUders and ask How can we make our new houses and neighborhoods more responsive to humanistic needs  
partlcularly in light of constant pressures to keep housing costs down This question will generally be addressed by comparing  
historical designs to those of today to see if we might be able to reconsider some old fashioned ideas in new housing designs

*National Park Service Housing Design and Rehabilitation Guideline* United States. National Park Service,1988      The  
Complete Guide to Green Building & Remodeling Your Home Martha Maeda,2011 In today s economy and socially conscious  
environment regarding the environment many people cannot afford not to start considering ways they can build or remodel  
their home to ensure it is green With scientific sources such as the UN council on global warming making statements about  
the degradation of ice flow and environmental conditions by 2050 and the likelihood that crude oil sources will be used up  
within the next fifty years it is especially necessary for young families to consider the implications of re examining their  
homes and living situations to be more green This book will guide you and your family through the process of learning more  
about and implementing the necessary changes and perspectives needed to change your home or build a new home that is  
environmentally conscious and prepared for the changing economic and environmental climate in the coming decades You  
will learn why people have started to build green and how it can be done in today s regulatory and cost conditions quickly  
and inexpensively You will learn how to remodel with green in mind and how to start working with building professionals that  
can provide the necessary materials plans and paperwork you need to proceed You will learn which materials are best for  
green building by lifespan and how to choose between various green materials You will learn how to not only use green  
materials but to make sure the construction process is green as well You will learn the basics of framing your building  
natural building methods the energy systems you might use and the heating cooling options at your disposal Construction  
and environmental experts have been interviewed and their expertise is included in this book to help you learn everything

you need to accomplish the above as well as to know what kinds of water and waste systems are best how to site plan and landscape your home and what the most common myths about green building are You will learn ten things you can do on any building project to keep it green and any materials you should always have on hand for anything you do around the house Regardless of whether you are just looking to remodel to make your house greener or are building a new home this book will give you everything you need to stay green and respect the environment with your home *Popular Mechanics* ,1987-03 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle Popular Science ,1988-04 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
