The Concept of Corporate Strategy Kenneth R. Andrews, 1971 **The Concept of Corporate Strategy** Kenneth R. Andrews, 1980 Monograph on corporate planning methodology involving management decision making discusses the concept and definition of corporate strategy management strategy relating opportunities to resources and strategies to personal value systems and ethics and the accomplishment of purpose through organizational processes and behaviour etc References Management of Regulatory Influences on Corporate Strategy and Structure Sebastian Frankenberger, 2007-10-29 Foreword In recent years regulation and deregulation issues grew into a major concern of corporate management Asked about their biggest pain points managers from different businesses not only network based industries like telecommunications transportation and energy but also chemicals or food and beverages mentioned uncertainty resulting from regulation Despite this fact strategic management has so far widely neglected the interactions and inter dependencies between corporate and regulatory actors With this dissertation the author aims at closing this gap through a better integration of external regulatory actors into the strategy formation process More specifically he asks how regulatory actors impact corporate strategy and structure and how corporate management can proactively manage this type of external involvement Based on an extensive literature review the author shows that extant models of the strategy formation process focus almost exclusively on actors internal to the firm external actors are widely neglected In general they have been condensed under rather abstract conditions of the environment such as uncertainty or complexity If explicitly considered only selected elements e.g. innovativeness diversification or organizational design have been analyzed in primarily content based quantitative cross-sectional studies A broader understanding of the complex inter dependencies and mutual influences between corporate and external actors remains lacking
