Wenger, 2021-11-07 Much previous research on elderly people had focused on their problems and had created an impression of a group of isolated individuals suffering from almost insurmountable social difficulties Originally published in 1984 this study of the everyday lives of elderly people and the sources of help and care available to them in the community at the time made a special contribution by showing how they can and do make creative adaptations to the challenge of age and by increasing our understanding of their informal networks of support The author looks not only at the role and availability of family but also of friends neighbours voluntary associations and statutory services and the composite networks of support which these contacts form noting differences related to gender class and household composition The detailed picture that she presents would be invaluable to those teachers students and practitioners of social work concerned with the development of more community based patterns of social work as recommended by the Barclay Report and to policy makers who needed to understand how sometimes strained natural support systems may be reinforced and maintained The book also extends our knowledge of the normal lives of elderly people and will be of general interest to social gerontologists and network theorists in sociology and anthropology **A Short Course in International Intellectual Property Rights** Karla C. An Interpretation of Jane Austen's Mansfield Park Jean S Kelly, 2021-07-26 Mansfield Park is in essence a tapestry of allusions to various works of literature and events in history to which Jane Austen left abundant clues This book is about finding and interpreting those clues Works of literature alluded to include among others Spenser's The Faerie Queene Dante's Inferno and Milton's Paradise Lost Events in history alluded to include the slavery issue of Jane Austen's day the American Revolution the Battle of Actium the Battle of Trafalgar and the then looming War of 1812 *Social Support, Life Events, and Depression* Nan Lin, Alfred Dean, Walter M. Ensel, 2013-10-22 Social Support Life Events and Depression describes a research program that looked into the social process of mental health This research program provided an arena for opportunities to explore many topics concerning the relationships among social support life events and mental health primarily depressive symptoms The volume is organized into six parts Part I sets the background and scope of the study Part II focuses on the dependent variable depression one of the two independent variables life events and the key control variable psychological resources Part III describes the measurement of social support Part IV examines the basic models involving social support life events psychological resources and depression Part V proceeds to examine the reduced basic model in terms of a number of factors such as age sex marital status social class and history of prior illness Part VI discusses several specific issues regarding the dynamics of social support This book is intended primarily for researchers scientists professionals and instructors who are interested in examining both conceptual and methodological issues regarding social factors in mental health Thus those working in the area of public health social and behavioral sciences and medical professions may find this book useful Because of the way the chapters are organized it is possible for researchers and practitioners alike to select and read chapters pertinent to their specific interests **The Catholic Myth** Andrew Greeley, 1997-08 For the past three decades Andrew Greeley priest sociologist and bestselling author has researched the behavior and beliefs of American Catholics Here he translates his works into hard data as he describes the fascinating wonderful and slightly daffy story of American Catholicism since the end of the Second Vatican Council A powerful argument this survey dispels many myths and gives new meaning to the word Catholic *Dictionary of the Theatre* Patrice Pavis, 1998-01-01 An encyclopedic dictionary of technical and theoretical terms the book covers all aspects of a semiotic approach to the theatre with cross referenced alphabetical entries ranging from absurd to word scenery **Research Instruments in Social Gerontology**, 1982 □□□ □3 qi longpantian, 2025-01-15 He knows the contradiction between Zhang Yan and Yang Feng and tripterygium wilfordii but there is no contradiction with himself **Theatre Sciences**, 2015-06-26 Traditional theatre semiotics promoted a scientific approach to theatre studies albeit viewing semiotics as the unique discipline of research Theatre Sciences A Plea for a Multidisciplinary Approach to Theatre Studies suggests instead a multi disciplinary approach including the following theoretical disciplines narratology mythology pragmatics ethics theatre irony theory of genres aesthetics semiotics theory of non verbal figures of speech rhetoric psychoanalysis reception theory history and sociology with semiotics being only one

among equals These disciplines are presented from the perspective of their possible contributions to a sound methodology of theatre texts analysis Traditional theatre semiotics moreover holds the view that the actual performance on stage is the genuine text of theatre instead of the play script Despite this paradigmatic shift however this viewpoint has failed to produce commendable analyses of such texts The alternative presupposition put forward in this volume entails a series of novel perceptions of the theatre text and its possible impact on the experiencing spectator whose role in reading interpreting and experiencing the theatre text is not less crucial than that of the text itself This view presupposes that the theatre text is a description of a fictional world generated by the theatre medium The author also contests the age old view that a theatre fictional text reflects a simple narrative structure and suggests instead a complexity that consists of seven layers personified mythical praxical naive ironic modal and aesthetic with each one of them re structuring the previous layer Professor Rozik also presents and describes a semiotic layer that lends communicative capacity to the description of a fictional world and two additional metaphoric and rhetoric layers which structure the theatre experience The underlying purpose is to illustrate the application of the aforementioned disciplines to these fictional layers and eventually their joint application to entire theatre fictional texts Organisation of the book reflects the structure of a university course

The Psychology of Secrets Anita E. Kelly, 2012-12-06 On an MTV special aired in 2000 young interviewees were asked to confess the worse thing they were ever told during a romantic breakup One person tearfully responded that I suck in bed More recently an acquaintance of mine admitted to his new girlfriend that he has a mean streak She decided not to date him after that Another memorable and painful example of openness occurred years ago when I served as a member of a suicide intervention team I was called to a very disturbing scene in an upscale neighborhood to console a woman who was threaten ing to take her life on the lawn in front of her children Her husband had just confessed

his long term affair to her that morning and she felt that her world was coming apart Fortunately she did not take her life but was left with the humiliation of haVing her neighbors know about her private troubles The question these examples bring to mind is Why do people so often reveal potentially stigmatizing personal information to others The reader probably has an intuitive answer to this question already It can seem like such a burden even torture to keep secrets from other people Hiding such things as feelings of discontent from a boyfriend or girlfriend violations of the law from close friends and indiscretions from employers can be alienating People want others to know them therefore they often end up disclosing self incriminating information
