the Hanseatic League Helen Zimmern, 2015-12-08 The Hansa Towns and the Hanseatic League is a fantastic history of the famous trading group **Forces of the Hanseatic League** David Nicolle, 2014-04-20 A commercial and defensive federation of merchant guilds based in harbour towns along the North Sea and Baltic coasts the Hanseatic League eventually dominated maritime trade in Northern Europe and spread its influence much further afield The League was formed to protect the economic and political interests of member cities throughout a vast and complex trading network During its 300 years of dominance the League's large ships called cogs were at the forefront of maritime technology were early users of cannon and were manned by strong fighting crews to defend them from pirates in both open sea and river warfare David Nicolle explores these approaches as well as the fortifications and gunpowder weapons they invested in to protect them from the sieges they were subjected to Featuring specially commissioned artwork this is first detailed illustrated study in English of the fighting men weapons and ships of the greatest mercantile and naval power of medieval northern Europe *The Hansa Towns* Helen Zimmern, 1907 **The Hansa Towns** Helen Zimmern, 2017-10-25 A book well written by Helen

Zimmern on the terrible history of power competition and maturation of the commerce institutions in the Baltic that played a role as important as the Mediterranean in the development of international trade and institutions There is scarcely a more remarkable chapter in history than that which deals with the trading alliance or association known as the Hanseatic League The League has long since passed away having served its time and fulfilled its purpose The needs and circumstances of mankind have changed and new methods and new instruments have been devised for carrying on the commerce of the world Yet if the League has disappeared the beneficial results of its action survive to Europe though they have become so completely a part of our daily life that we accept them as matters of course and do not stop to inquire into their origin
