W. E. B. Du Bois: International Thought W. E. B. Du Bois, 2022-11-17 Highlights W. E. B. Du Bois's sustained engagement with empire and internationalism through essays and speeches spanning the years 1900-1956. **The Harlem Renaissance** Stuart A. Kallen, 2009-05-29 Author Stuart A. Kallen provides a fascinating overview of the African American cultural movement that began in the 1920s and was centered in Harlem, New York. The art, theater, jazz, and literary genius of the Harlem Renaissance will thrill you, readers. **A History of American Thought 1860-2000** Daniel Wickberg, 2023-09-07 This book is a comprehensive overview of the history of modern American thought and examines a wide range of modern thought and thinkers from 1860, when Charles Darwin's *Origin of Species* was published in the United States, to the end of the twentieth century. The focus of this volume is on the destabilizing effects of modern challenges to notions of fixed order and absolute truths and the contradictory consequences for philosophical, political, social, and aesthetic thought. The intellectual response to the unprecedented changes of this era produced visions of both liberation from the hierarchies of the past and new forms of control and constraint. One of the central contradictions in modern thought was between biological and cultural ideas of social, psychological, and moral order. This is the first work to provide an interpretive vision of the entire period under consideration. Topics covered include evolutionary thought, philosophical Pragmatism, ideas of race and gender, pluralism, and cultural relativism. Cold War Liberalism, science, and religion, feminist thought, evolutionary psychology, and the late twentieth century Culture Wars. Thinkers from William James and Charlotte Perkins Gilman through Judith Butler and Cornel West are analyzed as historical figures. This volume is an ideal resource for a general audience as well as undergraduate and graduate students in the field of American intellectual history. *The Harlem Renaissance in Black and White* George Hutchinson, 1995 By restoring interracial dimensions left out of accounts of the Harlem Renaissance or blamed for corrupting it, George Hutchinson transforms our understanding of black and white literary modernism, interracial literary relations, and twentieth-century cultural nationalism in the United States. *New Thoughts on the Black Arts Movement* Lisa Gail Collins, Margo Natalie Crawford, 2006-05-16 During the 1960s and 1970s, a cadre of poets, playwrights, visual artists, musicians, and other visionaries came together to create a renaissance in African American literature and art. This charged chapter in the history of African American culture, which came to be known as the Black Arts Movement, has remained largely neglected by subsequent generations of critics. *New Thoughts on the Black Arts Movement* includes essays that reexamine well-known figures such as Amiri Baraka, Larry Neal, Gwendolyn Brooks, Sonia Sanchez, Betye Saar, Jeff Donaldson, and Haki

Madhubuti In addition the anthology expands the scope of the movement by offering essays that explore the racial and sexual politics of the era links with other period cultural movements the arts in prison the role of Black colleges and universities gender politics and the rise of feminism color fetishism photography music and more An invigorating look at a movement that has long begged for reexamination this collection lucidly interprets the complex debates that surround this tumultuous era and demonstrates that the celebration of this movement need not be separated from its critique **The Oxford**

Joseph, 2017-04-25 Thinking in Public provides a probing and provocative meditation on the intellectual life and legacy of Jacques Roumain As a work of intellectual history the book investigates the intersections of religious ideas secular humanism and development within the framework of Roumain s public intellectualism and cultural criticism embodied in his prolific writings The book provides a reconceptualization of Roumain s intellectual itineraries against the backdrop of two public spheres a national public sphere Haiti and a transnational public sphere the global world Second it remaps and reframes Roumain s intellectual circuits and his critical engagements within a wide range of intellectual traditions cultural and political movements and philosophical and religious systems Third the book argues that Roumain s perspective on religion social development and his critiques of religion in general and of institutionalized Christianity in particular were substantially influenced by a Marxist philosophy of history and secular humanist approach to faith and human progress Finally the book advances the idea that Roumain s concept of development is linked to the theories of democratic socialism relational anthropology distributive justice and communitarianism Ultimately this work demonstrates that Roumain believed that only through effective human solidarity and collaboration can serious social transformation and real human emancipation take place

Reading Multiple Consciousness Komla M. Avono, 2024-12-15 For over a century the intellectual debate of scholars from African descent has been dominated by the idea of double consciousness spearheaded by W E B DuBois Interestingly with many years of vexatious issues of the encounter between the West and Africa many scholars approached the debate on the basis of the consciousness of the Self and the Other However this idea seems to overlook the

multiplicities of being black white Reading Multiple Consciousness Exploring the Complexity of Postmodern Identity suggests a different approach to the issue by taking more steps beyond double consciousness It enriches the debate over race literature and colonization as it offers another way of reading texts This book proposes that the complexity of postmodern identity is more accurately described by a theory of multiple consciousness This study arises out of the necessity of a more nuanced theoretical framework for a younger generation of researchers on both sides of the Atlantic a conceptual approach that does justice to the complexity of their experience **A Companion to British Literature, Volume 2** Robert DeMaria, Jr., Heesok Chang, Samantha Zacher, 2013-12-13
