Then in a series of chapters richly supported by analyses of literary texts visual arts film video television comics computer games and graphics Bukatman takes the reader on an odyssey that traces the postmodern subject from its current crisis through its close encounters with technology and finally to new self recognition This new virtual subject as Bukatman defines it situates the human and the technological as coexistent codependent and mutally defining Synthesizing the most provocative theories of postmodern culture with a truly encyclopedic treatment of the relevant media this volume sets a new standard in the study of science fiction a category that itself may be redefined in light of this work Bukatman not only offers the most detailed map to date of the intellectual terrain of postmodern technology studies he arrives at new frontiers providing a propitious launching point for further inquiries into the relationship of electronic How to Save the West Spencer A. Klavan, 2023-02-14 A book to let you know you re not alone technology and culture the wisdom of the ages can guide us through the struggles of the present The fate of our civilization depends on whether ordinary people internalize the truth and beauty conveyed in the masterpieces of Western culture Spencer Klavan classicist and podcaster defends that culture and explains why and how we must hand it on to the next generation First book for the fans of the Young Heretics podcast hosted by author Spencer Klavan son of Daily Wire celebrity Andrew Klavan People want to save the west and help win the culture wars but don t know how This survey of the West's great ideas drawing from greats like Aguinas and Plato is also a survival handbook for the 21st century The West is in crisis and ordinary folks feel powerless but with a little training regular people can be the most important defenders of all that is good and true in our cultural heritage It has been proclaimed many times but perhaps never more convincingly than now when every news cycle seems to deliver further confirmation of a world gone mad Is this the endgame Have we come to closing time in the West Author Spencer Klavan is a classicist with a Ph D from Oxford and a deep understanding of the West His analysis The situation is dire But every crisis we face today we have faced before And we can surmount each one Today s five essential crises are The Crisis of Reality Is there such a thing as objective truth and even if there is can virtual reality replace it The Crisis of the Body Not just the transgender insanity but the push for a transhumanist future The Crisis of Meaning Evolution both

Talbot, 2014-09-19 In this book Mary Talbot shows how fiction works in the constitution and reproduction of social life She discusses both high and low fiction combining discussion of social context with language analysis Examples are taken from children's tales romance horror and science in her language analysis The Inner Man John Baxter, 2011-09-08 An explosive and perceptive biography of the British novelist J G Ballard To many people J G Ballard will always be the schoolboy in Steven Spielberg's movie Empire of the Sun struggling to survive as an internee of the Japanese during World War II Others remember him as the author of CRASH a meditation on the eroticism of the automobile and the car crash which also became a film and a cause celebre for its frank depiction of a fetish which as this book reveals was no literary conceit but a lifelong preoccupation In this first biography John Baxter draws on an admiration of and acquaintance with Ballard that began when they were writers for the same 1960s science fiction magazines With the help of the few people whom he admitted to his often hermit like existence it illuminates the troubled reality behind the urbane and amiable facade of a man who was proud to describe himself as psychopathic Science Fiction & Fantasy Book Review Annual ,1990

Science Fiction Culture Camille Bacon-Smith,2000 An inside look at this wonderfully strange universe <a href="Scraps Of The Untainted Sky">Scraps Of The Untainted Sky</a> Thomas Moylan,2018-03-05 Dystopian narrative is a product of the social ferment of the twentieth century A hundred years of war famine disease state terror genocide ecocide and the depletion of humanity through the buying and selling of everyday life provided fertile ground for this fictive underside of the utopian imagination From the classical works by E M Forster Yevgeny Zamyatin Aldous Huxley George Orwell and Margaret Atwood through the new maps of hell in postwar science fiction and most recently in the dystopian turn of the 1980s and 1990s this narrative machine has produced challenging cognitive maps of the given historical situation by way of imaginary societies which are even worse than those that lie outside their authors and readers doors In Scraps of the Untainted Sky Tom Moylan offers a thorough investigation of the history and aesthetics of dystopia To situate his study Moylan sets out the methodological paradigm that developed within the interdisciplinary fields of science fiction studies and utopian studies as they grow out of the oppositional political culture of the 1960 and 1970s the context that produced the project of cultural studies itself He then presents a thorough account of the textual structure and formal operations of the dystopian text From there he focuses on the new science

fictional dystopias that emerged in the context of the economic political and cultural convulsions of the 1980s and 1990s and he examines in detail three of these new critical dystopias Kim Stanley Robinson's The Gold Coast Octavia Butler's The Parable of the Sower and Marge Piercy's He She and It With its detailed documented and yet accessible presentation Scraps of the Untainted Sky will be of interest to established scholars as well as students and general readers who are seeking an in depth introduction to this important area of cultural production

Between Science and Society Douglas A. Van Belle, 2020-12-10 In Between Science and Society Charting the Space of Science Fiction Douglas A Van Belle uses interviews with 24 science fiction authors to analyze the conceptual space that science fiction occupies between science and society Using these interviews Van Belle studies the similarities and differences between the academic and professional understandings of the genre Between Science and Society arguesthat for authors all of the aspects of the genre that are emphasized by academics such as science communication and depictions of scientists are secondary to the artistic effort to entertain through storytelling Through his interviews Van Belle explores both the genre's place in relation to science and society and key elements to surviving as a professional science fiction author Van Belle creates a definition of science fiction based on the creative ideals expressed by these authors and compared to those that arise from the academic perspective showing that academics are struggling to engage one of the two central ideals of the genre
