The Meaning Of The Built Environment A Nonverbal Communication Approach:

The Meaning of the Built Environment Amos Rapoport,1990 The Meaning of the Built Environment is a lively illustrated study of the meanings of everyday buildings for their users Professor Rapoport uses examples and vignettes drawn from many cultures and historical eras as well as contemporary America to explicate a new framework for understanding how the built environment comes to have meaning both for individual people and whole societies **The Meaning of the Built**

Environment Amos Rapoport,1982-11-01 The Meaning of the Built Environment is a lively illustrated study of the meanings of everyday buildings for their users Professor Rapoport uses examples and vignettes drawn from many cultures and historical eras as well as contemporary America to explicate a new framework for understanding how the built environment comes to have meaning both for individual people and whole societies this book fills a significant gap it introduces the notion of environmental meaning so clearly that no reader will doubt the basic premise that the environment holds meaning as part of a cultural system of symbols and influences our actions and our determinations of social order Design Book Review Fall 1984 **Meaning of the built environment; a nonverbal communication approach** A. Rapoport,1982 *The*

Built Environment Wendy R. McClure,Tom J. Bartuska,2011-09-09 This book takes a sweeping view of the ways we build things beginning at the scale of products and interiors to that of regions and global systems In doing so it answers questions on how we effect and are affected by our environment and explores how components of what we make from products buildings and cities are interrelated and why designers and planners must consider these connections **Palace and**

Temple Clifford Mark McCormick,2012-10-24 This book is a critical study of the role played by architecture and texts in promoting political and religious ideologies in the ancient world It explains a palace as an element in royal propaganda seeking to influence social concepts about kingship and a text about a temple as influencing social concepts about the relationship between God and human beings Applying the methods of analysis developed in built environment studies the author interprets the palace and temple building programs of Sennacherib King of Assyria and Solomon King of Israel The physical evidence for the palace and the verbal evidence for the temple are explained as presenting communicative icons intended to influence contemporary political and religious concepts The volume concludes with innovative interpretations of the contributions of architectural and verbal icons to religious and political reform **Cognitive Approaches to Ancient**

Religious Experience Esther Eidinow,Armin W. Geertz,John North,2022-08-11 Explores the religious rituals and beliefs of ancient Greece and Rome using modern research into human cognition to better understand the experiences of men and women Integrates literary epigraphic visual and archaeological evidence Accessible to those without prior knowledge either of cognitive theory or of the ancient world Cityscapes and Monuments of Western Asia Minor Eva Mortensen,Birte Poulsen,2017-12-21 Cityscapes consist of houses streets civic buildings sanctuaries tombs monuments and inscriptions created by multiple generations of citizens and foreigners with an interest in the city they are interpreted and reinterpreted

as expressions of past lives changing relations of power memories and various identities The present volume publishes 25 contributions written by scholars specializing in the history and archaeology of western Asia Minor New and well known material literary epigraphical numismatic and archaeological is presented and analyzed through the twin lenses of memory and identity The contributions cover more than 1000 years of cultural diversity during changing political systems from the Lydian and Persian hegemony in the Archaic period through Athenian supremacy and Persian satrapal rule in the Classical period then autocratic kingship in Hellenistic times until finally more than half a millennium of Roman rule Identities are voiced through several media and visible at many levels of the ancient societies So are the places of memory the Lieux de Mémoire and the studies presented here provide new insights into how human beings chose deliberately or subconsciously to commemorate their past and their ancestors and how identity was displayed and expressed under shifting political rule

Coming Together Attila Gyucha, 2019-02-28 The pursuit for universally applicable definitions of the terms urban and city has frequently distracted scholars from scrutinizing processes of how ancient nucleated settlements evolved and developed Based on the premise that similar social dynamics to a great extent governed nucleation trajectories throughout human history Coming Together focuses on both prehistoric aggregated and early urban settlements Drawing from a variety of theoretical and methodological approaches archaeologists anthropologists and classicists discuss how nucleation unfolded in strikingly different sociopolitical contexts in North America Europe and the Near East The major themes of the volume are nucleation's origins pathways to sustainability and the transformative role of these sites in sociopolitical and cultural change

Social Complexity and Complex Systems in Archaeology Dries Daems, 2021-02-22 Social Complexity and Complex Systems in Archaeology turns to complex systems thinking in search of a suitable framework to explore social complexity in Archaeology Social complexity in archaeology is commonly related to properties of complex societies such as states as opposed to so called simple societies such as tribes or chiefdoms These conceptualisations of complexity are ultimately rooted in Eurocentric perspectives with problematic implications for the field of archaeology This book provides an in depth conceptualisation of social complexity as the core concept in archaeological and interdisciplinary studies of the past integrating approaches from complex systems thinking archaeological theory social practice theory and sustainability and resilience science The book covers a long term perspective of social change and stability tracing the full cycle of complexity trajectories from emergence and development to collapse regeneration and transformation of communities and societies It offers a broad vision on social complexity as a core concept for the present and future development of archaeology This book is intended to be a valuable resource for students and scholars in the field of archaeology and related disciplines such as history anthropology sociology as well as the natural sciences studying human environment interactions in the past

Vernacular Architecture in the Pre-Columbian Americas Christina Halperin, Lauren Schwartz, 2016-09-13 Vernacular Architecture in the Pre-Columbian Americas reveals the dynamism of the ancient past where social relations and

long term history were created posthole by posthole brick by brick This collection shifts attention away from the elite and monumental architectural traditions of the region to instead investigate the creativity subtlety and variability of common architecture and the people who built and dwelled in them At the heart of this study of vernacular architecture is an emphasis on ordinary people and their built environments and how these everyday spaces were pivotal in the making and meaning of social and cultural dynamics Providing a deeper and more nuanced temporal perspective of common buildings in the Americas the editors have deftly framed a study that highlights sociocultural diversity while at the same time facilitating broader comparative conversations around the theme of vernacular architecture With diverse case studies covering a broad range of periods and regions Vernacular Architecture in the Pre Columbian Americas is an important addition to the growing body of scholarship on the indigenous architecture of the Americas and is a key contribution to our archaeological understandings of past built environments
