The Meddling Gods Four Essays On Classical Themes:

The Meddling Gods; Four Essays on Classical Themes [By] Hazel E. Barnes Hazel Estella Barnes,1974 **The Meddling Gods** Hazel E. Barnes,1974-01-01 **The Meddling Gods** Hazel Estella Barnes,1974 *MEDDLING GODS* ,1974

Metamorphoses of Psyche in Psychoanalysis and Ancient Greek Thought Marcia Dobson,2022-12-08 This unusual book explores the transformative power of liminal experiences in ancient Greek texts psychoanalytic theory and the author's own life to demonstrate how a contemporary understanding of ancient thought can illuminate modern psychoanalytic theory and practice especially as it relates to trauma grief and the development of psyche With the understanding that liminal experiencing involves engaging a psychic space outside the boundaries of ego organization Dobson artfully interweaves autobiography literary analysis philosophical ontology and psychoanalysis to formulate a new paradigm for how to construct human beings how to enliven and deepen personal and therapeutic experience and how poetic language is the gateway to this magical realm of transformation Alongside richly detailed case analyses the author uses her dual expertise in psychoanalysis and ancient Greek literature to explore how the maternal and liminal in human life were displaced with the rise of Athens and a new way of being human the rational citizen and how this repression has resulted in diminished constricted experiencing and the suppression of women throughout western history With a deep understanding of classical literature and psychoanalysis and extensive clinical insights this is essential reading for psychoanalysts psychotherapists classicists and historians wishing to understand how ancient thought and modern psychoanalysis can interact **Classical Myth and Culture in the Cinema** Martin M. Winkler,2001-06-21 *Classical Myth and Culture in the Cinema* is a collection of essays presenting a variety of approaches to films set in ancient Greece and Rome and to films that reflect archetypal features of classical literature The diversity of content and theoretical stances found in this volume will make it required reading for scholars and students interested in interdisciplinary approaches to text and image and for anyone interested in the presence of Greece and Rome in modern popular culture **The Cnidaria, Past, Present and Future** Stefano Goffredo,Zvy Dubinsky,2016-09-07 This volume presents a broad panorama of the current status of research of invertebrate animals considered belonging to the phylum Cnidaria such as hydra jellyfish sea anemone and coral In this book the Cnidarians are traced from the Earth's primordial oceans to their response to the warming and acidifying oceans Due to the role of corals in the carbon and calcium cycles various aspects of cnidarian calcification are discussed The relation of the Cnidaria with Mankind is approached in accordance with the Editors philosophy of bridging the artificial schism between science arts and Humanities Cnidarians encounters with humans result in a broad spectrum of medical emergencies that are reviewed The final section of the volume is devoted to the role of Hydra and Medusa in mythology and art **Religion of the Gods** Kimberley Christine Patton,2009 In many of the world's religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships Various interpretations of this seeming paradox have

been advanced Some suggest that it represents sacrifice to a higher deity Proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities However such explanations do not do justice to the complexity and diversity of this phenomenon In *Religion of the Gods* Kimberley C Patton uses a comparative approach to take up anew a longstanding challenge in ancient Greek religious iconography why are the Olympian gods depicted on classical pottery making libations The sacrificing gods in ancient Greece are compared to gods who perform rituals in six other religious traditions the Vedic gods the heterodox god Zurvan of early Zoroastrianism the Old Norse god Odin the Christian God and Christ the God of Judaism and Islam s Allah Patton examines the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences Instead of looking for invisible recipients or lost myths Patton proposes the new category of divine reflexivity Divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human realm Above all divine ritual is generative both instigating and inspiring human religious activity The religion practiced by the gods is both like and unlike human religious action Seen from within the religious tradition gods are not big people but other than human Human ritual is directed outward to a divine being but the gods practice ritual on their own behalf Cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed Offering the first comprehensive study and a new theory of this fascinating phenomenon *Religion of the Gods* is a significant contribution to the fields of classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself

Sexuality and Gender in the Classical World Laura K. McClure, 2008-04-15 This volume provides essays that represent a range of perspectives on women gender and sexuality in the ancient world tracing the debates from the late 1960s to the late 1990s

T.S. Eliot and the Poetics of Evolution

Lois A. Cuddy, 2000 Guided by Eliot s own allusions and references to specific authors and historical moments Cuddy adds a feminist cultural and intertextual perspective to the familiar critical interpretations of Eliot s work in order to reread poems and plays through nineteenth century ideologies and knowledge set against our own time By considering the implications and consequences of Eliot s culturally approved assumptions this study further reveals how Eliot was trapped between the idea of Evolution as a unifying project and the reality of his own and his culture s hierarchical and fragmenting beliefs about class gender religion and race Cuddy concludes by exploring how this conflict undermined Eliot s mission of unity and influenced his and Modernism s place in history

BOOK JACKET

The Meddling Gods Four Essays On Classical Themes Book Review: Unveiling the Power of Words
