The Charlemagne Legend in Medieval Latin Texts William J. Purkis, Matthew Gabriele, 2016 Essays on the various manifestations of Charlemagne and his legends This book explores the multiplicity of ways in which the Charlemagne legend was recorded in Latin texts of the central and later Middle Ages moving beyond some of the earlier canonical raw materials such as Einhard's Vita Karoli Magni to focus on productions of the eleventh to fifteenth centuries A distinctive feature of the volume's coverage is the diversity of Latin textual environments and genres that the contributors examine in their work including chronicles liturgy and pseudo histories as well as apologetical treatises and works of hagiography and literature Perhaps most importantly the book examines the many lives that Charlemagne was believed to have lived by successive generations of medieval Latin writers for whom he was not only a king and an emperor but also a saint a crusader and indeed a necrophiliac William J Purkis is a Senior Lecturer in Medieval History at the University of Birmingham Matthew Gabriele is an Associate Professor of Medieval Studies in the Department of Religion Culture at Virginia Tech Contributors Jeffrey Doolittle Matthew Gabriele Miguel Dolan Gmez Oren Margolis William J Purkis Andrew J Romig Sebastian Salvad Jace Stuckey James Williams

The Legend of Charlemagne in the Middle Ages M. Gabriele, J. Stuckey, 2008-09-29 These essays take advantage of a new exciting trend towards interdisciplinary research on the Charlemagne legend Written by historians art historians and literary scholars these essays focus on the multifaceted ways the Charlemagne legend functioned in the Middle Ages and how central the shared if nonetheless fictional memory of the great Frankish ruler was to the medieval West A gateway to new research on memory crusading apocalyptic expectation Carolingian historiography and medieval kingship the contributors demonstrate the fuzzy line separating fact and fiction in the Middle Ages

An Empire of Memory Matthew Gabriele, 2011-03-24 Beginning shortly after Charlemagne s death in 814 the inhabitants of his historical empire looked back upon his reign and saw in it an exemplar of Christian universality Christendom They mapped contemporary Christendom onto the past and so during the ninth tenth and eleventh centuries the borders of his empire grew with each retelling almost always including the Christian East Although the pull of Jerusalem on the West seems to have been strong during the eleventh century it had a more limited effect on the Charlemagne legend Instead the legend grew during this

period because of a peculiar fusion of ideas carried forward from the ninth century but filtered through the social cultural and intellectual developments of the intervening years Paradoxically Charlemagne became less important to the Charlemagne legend The legend became a story about the Frankish people who believed they had held God's favour under Charlemagne and held out hope that they could one day reclaim their special place in sacred history Indeed popular versions of the Last Emperor legend which spoke of a great ruler who would reunite Christendom in preparation for the last battle between good and evil promised just this to the Franks Ideas of empire identity and Christian religious violence were potent reagents The mixture of these ideas could remind men of their Frankishness and move them for example to take up arms march to the East and reclaim their place as defenders of the faith during the First Crusade An Empire of Memory uses the legend of Charlemagne an often overlooked current in early medieval thought to look at how the contours of the relationship between East and West moved across centuries particularly in the period leading up to the First Crusade

Medieval Iconography John B. Friedman, Jessica M. Wegmann, 2021-11-18 First published in 1998 the present volume aims to help the researcher locate visual motifs whether in medieval art or in literature and to understand how they function in yet other medieval literary or artistic works

Medieval Warfare Maurice Hugh Keen, 2001

Charlemagne in Medieval German and Dutch Literature Albrecht Classen, 2021 Comprehensive survey of the legend of Charlemagne in the medieval German speaking world The legend of the Frankish emperor Charlemagne is widespread through the literature of the European Middle Ages This book offers a detailed and critical analysis of how this myth emerged and developed in medieval German and Dutch literatures bringing to light the vast array of narratives either idealizing if not glorifying Charlemagne as a political and religious leader or at times criticizing or even ridiculing him as a pompous and ineffectual ruler The motif is traced from its earliest origins in chronicles in the Kaiserchronik through the Rolandslied and Der Stricker's Karl der Große to his recasting as a saint in the Zürcher Buch vom Heiligen Karl
