

The image shows a technical drawing of a gear assembly, specifically a gear mounted on a shaft. The drawing is overlaid with a tolerance chart from DIN EN ISO 286-2 (2010-11). The chart provides deviation values in micrometers (µm) for tolerance classes H7 and k6. The gear is shown in a perspective view, highlighting its teeth and mounting holes. The chart is a grid with columns for hole and shaft tolerances and rows for different tolerance classes. The H7 tolerance class is highlighted in blue. The k6 tolerance class is also indicated. The chart is used to specify the manufacturing tolerances for the gear and shaft components.
