Yudkoff and The Founder's Dilemma by Noam Wasserman      *The Broken Rung* Kweilin Ellingrud, Lareina Yee, Maria del Mar Martinez, 2025-03-11 The broken rung is more pervasive than the glass ceiling in holding women back from career success Three McKinsey senior partners offer strategies for overcoming it and fulfilling your potential Women around the world do extremely well when it comes to their education They graduate at higher rates than men and have higher average GPAs But then a strange thing happens upon entering the workforce they immediately lose their advantage When the first promotions come around the slide continues For every 100 men promoted to manager only 81 women overall and 77 women of color get promoted This is what McKinsey senior partners Kweilin Ellingrud Lareina Yee and Mar a del Mar Mart nez call the broken rung and its effects compound throughout women's careers causing them to fall behind at the start and keeping them from catching up In this groundbreaking book the authors reveal the problem's underlying cause while about half of a person's lifetime earnings come from education and half from work experience men get more value from their experience than women do It is also here in one's work experience that the solution lies women need to build their experience capital to level the playing field and maximize their earning potential The book combines over a decade of research personal conversations with more than fifty remarkable leaders and the authors own rich experiences as leaders at McKinsey They weave data on the potential pitfalls with inspiring and instructive stories of women who have climbed over the broken rung using strategies that increased their experience capital Leaders and companies must do more to address gender inequalities in the workplace But you don't have to wait *The Broken Rung* is your guide right now for moving up the career ladder and reaching your full potential at work      **Vivekananda: A Born Leader** Asim Chaudhuri ,2016-07-07 The profile of Swami Vivekananda as A Leader has previously never been studied and thought about on its own especially in the light of modern management and leadership theories In this book published by Advaita Ashrama a branch of Ramakrishna Math the author by correlating Vivekananda's words deeds with present day management science establishes that Vivekananda was a Perfect Embodiment of the Servant Leadership Concept and an Extraordinary Leader Manager decades before these concepts gained acceptance in the Corporate world An enriching read for present and aspiring Leaders and Managers      **Chinese Multilateralism in the Asian Infrastructure Investment Bank (AIIB)** Bin Gu,2024-05-14 This book reflects the latest legal development of the Asian Infrastructure Investment Bank AIIB and makes direct and positive responses it uses first hand authoritative information and makes insightful and persuasive analyses in addressing those concerns In particular this book provides nuanced analysis of the following topics capital allocation of the AIIB in comparison with those of Bretton Woods institutions dynamic relationship between the shareholder board and management a central topic of corporate governance for the AIIB and other MDBs AIIB's environmental and social safeguards including its frontier ESG portfolio investments in comparison with the World Bank standards highly debatable issues relating to the interaction between AIIB Belt and Road and MCDF comparative study of state owned enterprises in the laws of AIIB WTO ICSID etc This book targets academics students

policymakers and business circles who are interested in AIIB given the bank's growing importance in the context of global economic governance reforms. First, the book is a must for those who are keen to gain insight into the AIIB. Ten years have passed since the debut of the idea of AIIB in 2013, and the topic has never retreated from the debate of the international community. **Leadership Agility** Dato' Razali Mohamad, Ts. Abdul Halim Bin Abd Rahman, Datuk Dr. Leow Chee Seng, Azeem bin Nazuri, *Leadership Agility: Essential Practices for Thriving in Complexity* is a guide for those who recognize that effective leadership in the modern era requires more than technical expertise or hierarchical authority. **School Leadership That Works** Robert J. Marzano, Timothy Waters, Brian A. McNulty, 2005-09-15. This guide to the 21 leadership responsibilities that influence student achievement will help school leaders focus on changes that really make a difference.

**Building Bridges** Claude Rocan, 2022-08-10. The case studies contained in this book show real-life examples of complex problems being addressed through collaboration. The problems confronting modern society are complex and do not lend themselves to simple solutions or linear decision-making. They require the involvement of many stakeholders. This is often brought about by networks which bring together a multitude of players in the search for solutions to public policy issues. This can be challenging as differing viewpoints and personalities and often conflicting interests need to be acknowledged and reconciled. Yet, without the involvement of all interested parties, solutions that emerge will likely be partial, distorted, and short-lived. The cases span a broad spectrum, including issues of poverty reduction, criminal gang reduction, environmental reparation, economic development for First Nations, building age-friendly communities, and co-management of fisheries.

Understanding the purpose of passion in leadership reveals how it transforms ordinary management into impactful, visionary guidance that shapes success. *The Purpose of Passion in Leadership* embraces a global interdisciplinary framework connecting passion to innovation and vision. It examines the effects of psychological perspectives on service and leadership in sectors like education, ministry, entrepreneurship, and community development. This book covers topics such as leadership styles, psychology, and workplace culture and is an excellent resource for leaders, researchers, entrepreneurs, district administrators, educators, educational coaches, technology specialists, business professionals, policymakers, and many more.
