Branded Entertainment Jean-Marc Lehu, 2007 Product placement has evolved from a novel marketing tactic to a key marketing strategy on a global scale This work explains the history and development of product placement advantages of this form of brand advertising and methods employed by different brands

Diabetesity Francine R. Kaufman, M.D., 2005-03-01 Experts now predict that more than one third of American children born in 2000 will develop diabetes in their lifetime Written by one of the world s leading authorities on the link between obesity and diabetes this passionate frightening but ultimately hopeful book points the way to a solution To enter Dr Francine Kaufman s clinic is to see the future of America a 220 pound twelve year old boy a 267 pound thirteen year old girl their concerned but equally overweight parents the human faces and human suffering behind the epidemic of type 2 diabetes that threatens to overwhelm our health care system Once a disease of the elderly type 2 diabetes now strikes adults in their prime and increasingly children It has nearly doubled in the last decade The cause Our soaring rates of obesity Diabetesity takes us to the front lines of the fight against this preventable but deadly disease Through vivid patient stories it explains how excess weight destroys the body s ability to process sugar properly with life threatening consequences It shows what happens when the genes that evolved to protect us from famine collide with a sedentary lifestyle that has put bacon cheeseburgers on every corner And it demonstrates why our usual blame the victim response is futile in face of the complex worldwide forces behind this epidemic Detailing the tools for change at every level from families to school systems to government and reporting on innovative programs that are already making a difference Diabetesity offers a compelling action plan for winning this battle

The Faces and Stakes of Brand Insertion Sébastien Lefait, Sandrine Villers, 2022-03-22 With traditional forms of advertisement facing increasing challenges brand placement the integration of a product or brand in a work of art has exploded It has become a lucrative phenomenon whose goal is to produce a reaction of purchase in the mind of the receiver reader viewer or listener This volume seeks to complement extant studies of product placement strategies by introducing a methodology more systematically related to the field of cultural studies especially where the reception and impact of product placement are concerned It explores the many iterations of brand placement in popular culture with a consideration of the crossover between advertisement and art in everything from Wes Anderson Blade Runner and the Fast and Furious franchise to music videos late night shows and plastic art The book considers the impact of brand placement in TV series on teenagers

as well as the evolution of such placement in literature The originality of this volume is that when the impact of the placement is mentioned it is to be understood as an intended aesthetic impact at least as much as a prompt to buy a product Consequently the placement of consumer goods in a cultural production the book suggests may both increase the sales of specific products and positively impact the production s ratings This book is perfect for researchers and students interested in marketing brand placement mass media art film and cultural studies

Consuming Kids Susan Linn, 2005 Looks at the way corporations and advertisers target children as a profitable demographic as well as their methods for getting past parental safeguards to make products of all kinds appeal directly to even the youngest children

Mathematics Content for Elementary and Middle School Teachers Barbara Ridener, Penelope Joan Fritzer, 2004 A short primer on each of the major math content areas that preservice and inservice elementary and middle school teachers are required to know This book is an invaluable resource for the classroom teacher who needs both an overview for planning and help in answering student questions Based broadly on the national standards it gives the teacher general scientific information to cover most state s standards and to help prepare them for teacher certification exams It also provides a strong overview of mathematical knowledge to allow the teacher to find information on important concepts to see where significant moments in mathematical history fit chronologically and to improve the teacher s understanding of mathematical ideas and concepts Moreover it saves professors from having to re teach mathematics content so they can remain focused on the methods

Persuasion and Influence in American Life Gary C. Woodward, Robert E. Denton, Jr., 2013-12-23 For more than twenty five years the authors have highlighted the complexities subtleties and pervasive influence of persuasive messages The seventh edition again blends historical rhetorical and social psychological approaches to persuasion theory The engaging discussions and multiple examples introduce the intricacies of social influence and highlight methods of presentation as well as evaluation The dynamic topic of persuasion presents a constantly changing palette for analysis The authors dissect theory and practice in multiple contexts from interpersonal interactions to public communication and persuasive campaigns to advertising to politics Twitter YouTube and social networking sites offer new media for persuasive appeals The means of persuading one another changes constantly yet much of what was written by Aristotle continues to be relevant The production of persuasive messages and the study of message effects have been and will

continue to be fertile ground for exploration Persuasion is an interactive process requiring willing and attentive participants Becoming responsible ethical and credible persuaders involves systematic thinking and informed preparation The skills required for planning composing and delivering effective messages are equally useful for evaluating messages received The seventh edition provides a thorough up to date discussion of classic and contemporary theories of persuasion to aid readers in developing skills as effective persuaders and as critical consumers of persuasive messages

Big Media, Big Money Ronald V. Bettig, Jeanne Lynn Hall, 2012-05-04 Big Media Big Money is a lively and scathing critique of the contemporary communications industry examining how media ownership and the profit making motive affect the messages we receive in alarming ways Through close readings of recent news events and critical examination of corporate influence Bettig and Hall conclude that current interconnections among media big business government and education pose a serious threat to democratic communications The second edition includes three new chapters covering the contemporary Hollywood film industry the changing landscape of the music industry and ad creep the proliferation of advertising into previously ad free venues such as schools and children s television programming

This Little Kiddy Went to Market Sharon Beder, 2010-10-06 This Little Kiddy Went to Market investigates the way that corporations are targeting younger children with a barrage of advertising and marketing designed to turn them into hyper consumers who define themselves by what they have rather than who they are The book argues that school reforms driven by corporate needs are largely to blame It be

Readers Read. Writers Write. Mathers Math! Deborah Peart Crayton, 2025-08-13 Early Literacy Early Numeracy Academic Success When it comes to math educators can feel the same tension they see in their students from uncertainty and anxiety to a lack of confidence in their own skills This mindset creates barriers in teaching and learning and perpetuates disparities in achievement Readers Read Writers Write Mathers Math Bridging the Gap Between Literacy and Mathematics introduces a groundbreaking framework to support educators in transforming their own math identities and creating classrooms that redefine the concept of literacy to include numeracy so that every student feels capable confident and excited about math Author Deborah Peart Crayton challenges the notion that math is optional instead she empowers educators to build a positive relationship with math while helping their students do the same Grounded in the belief that math like literacy is essential for navigating the world this book offers strategies and tips to reshape math instruction and create a supportive environment where every student thrives Through storytelling practical tools actionable plans and mathfirmations this book Redefines mathematics as a vital part of life Applies literacy teaching strategies to math instruction to inspire math engagement outside of the traditional block Integrates math into reading writing and other subjects for meaningful cross curricular learning Uses oral traditions visual storytelling and interdisciplinary methods to create a joyful rich and holistic learning experience Whether you re building confidence in your own math skills or looking to foster a community of math enthusiasts in your classroom this book will equip you to lead the way By viewing math as an essential life skill rather than an exclusive
