*Fighting Sleep* Franny Nudelman,2019-10-08 On April 21 1971 hundreds of Vietnam veterans fell asleep on the National Mall wondering whether they would be arrested by daybreak Veterans had fought the courts for the right to sleep in public while demonstrating against the war When the Supreme Court denied their petition they decided to break the law and turned sleep into a form of direct action During and after the Second World War military psychiatrists used sleep therapies to treat an epidemic of combat fatigue Inducing deep and twilight sleep in clinical settings they studied the effects of war violence on the mind and developed the techniques of brainwashing that would weaponize both memory and sleep In the Vietnam War era radical veterans reclaimed the authority to interpret their own traumatic symptoms nightmares flashbacks insomnia and pioneered new methods of protest In *Fighting Sleep* Franny Nudelman recounts the struggle over sleep in the postwar world revealing that sleep was instrumental to the development of military science professional psychiatry and antiwar activism Traversing the fields of military and mainstream psychiatry popular and institutional film documentary sound technology brain warfare and postwar social movements she demonstrates that sleep far from being passive empty or null is a site of contention and a source of political agency

**At the Edges of Sleep** Jean Ma,2022-10-04 A free open access ebook is available upon publication Learn more at [www.luminosoa.org](http://www.luminosoa.org) Many recent works of contemporary art performance and film turn a spotlight on sleep wresting it from the hidden private spaces to which it is commonly relegated *At the Edges of Sleep* considers sleep in film and moving image art as both a subject matter to explore onscreen and a state to induce in the audience Far from negating action or meaning sleep extends into new territories as it designates ways of existing in the world in relation to people places and the past Defined positively sleep also expands our understanding of reception beyond the binary of concentration and distraction These possibilities converge in the work of Thai filmmaker and artist Apichatpong Weerasethakul who has explored the subject of sleep systematically throughout his career In examining Apichatpong's work Jean Ma brings together an array of interlocutors from Freud to Proust George M Li to Tsai Ming-liang Weegee to Warhol to rethink moving images through the lens of sleep Ma exposes an affinity between cinema spectatorship and sleep that dates to the earliest years of filmmaking and sheds light upon the shifting cultural valences of sleep in the present moment

**The Surgeon's Battle** Lindsay Rae Smith Privette,2025-09-02 Between May 1 and May 22 1863 Union soldiers marched nearly 200 miles through the hot humid countryside to assault and capture the fortified city of Vicksburg Mississippi Upon its arrival the army laid siege to the city for a grueling forty seven days Disease and combat casualties threatened to undermine the army's fighting strength leaving medical officers to grapple with the battlefield conditions necessary to sustain soldiers' bodies Medical innovations were vital to the Union victory When

Vicksburg fell on July 4 triumph would have been fleeting if not for the US Army Medical Department and its personnel By centering soldiers health and medical care in the Union army s fight to take Vicksburg Lindsay Rae Smith Privette offers a fresh perspective on the environmental threats logistical challenges and interpersonal conflicts that shaped the campaign and siege In doing so Privette shines new light on the development of the army s medical systems as officers learned to adapt to their circumstances and prove themselves responsible stewards of soldiers bodies *Oath of Deception* Jennifer Anne Davis,2018-06-05 *Performance Testing of Textiles* Lijing Wang,2016-06-17 *Performance Testing of Textiles Methods Technology and Applications* examines the developed and established methodology for testing performance textiles also summarizing the material properties for advanced applications This book emphasizes reproducible tests using commonly used experimental methods reported in scientific literature and internationally recognized testing standards to quantify textile material properties and performance After an introductory explanation of key fiber and textile properties and testing methods the book summarizes electronic testing theories technologies and instrumentation for performance textiles Also covered are aspects of military textile medical textile sportswear smart composites and wearable textiles which as examples present the latest research and results related to performance textile testing and applications Offers up to date coverage of new and advanced performance testing techniques for the fiber and textile industries Explores key fiber and textile properties Summarizes electronic testing theories technologies and instrumentation for performance textiles Includes contributions from an international team of authors edited by an expert in the field **California Legion Monthly** ,1920

**The Image in Early Cinema** Scott Curtis,Philippe Gauthier,Tom Gunning,Joshua Yumibe,2018-03-22 In *The Image in Early Cinema* the contributors examine intersections between early cinematic form technology theory practice and broader modes of visual culture They argue that early cinema emerged within a visual culture composed of a variety of traditions in art science education and image making Even as methods of motion picture production and distribution materialized they drew from and challenged practices and conventions in other mediums This rich visual culture produced a complicated overlapping network of image making traditions innovations and borrowing among painting tableaux vivants photography and other pictorial and projection practices Using a variety of concepts and theories the contributors explore these crisscrossing traditions and work against an essentialist notion of media to conceptualize the dynamic interrelationship between images and their context **America's Asia** Colleen Lye,2009-05-24 What explains the perception of Asians both as economic exemplars and as threats *America's Asia* explores a discursive tradition that affiliates the East with modern efficiency in contrast to more familiar primitivist forms of Orientalism Colleen Lye traces the American stereotype of Asians as a model minority or a yellow peril two aspects of what she calls Asiatic racial form to emergent responses to globalization beginning in California in the late nineteenth century when industrialization proceeded in tandem with the nation s neocolonial expansion beyond its continental frontier From Progressive efforts to regulate corporate monopoly to New Deal

contentions with the crisis of the Great Depression a particular racial mode of social redress explains why turn of the century radicals and reformers united around Asian exclusion and why Japanese American internment during World War II was a liberal initiative In Lye s reconstructed archive of Asian American racialization literary naturalism and its conventions of representing capitalist abstraction provide key historiographical evidence Arguing for the profound influence of literature on policymaking America s Asia examines the relationship between Jack London and leading Progressive George Kennan on U S Japan relations Frank Norris and AFL leader Samuel Gompers on cheap immigrant labor Pearl S Buck and journalist Edgar Snow on the Popular Front in China and John Steinbeck and left intellectual Carey McWilliams on Japanese American internment Lye s materialist approach to the construction of race succeeds in locating racialization as part of a wider ideological pattern and in distinguishing between its different and sometimes opposing historical effects
