The Pre-Raphaelites Aurélie Petiot, 2019-10-08 A magnificent new book on the Pre Raphaelites oversized gorgeously illustrated and packed with insight Dante Gabriel Rossetti John Everett Millais and William Holman Hunt These were among the young British artists who in the revolutionary year of 1848 set out to return a lost vibrancy to European art Calling themselves the Pre Raphaelite Brotherhood they and their later followers including Edward Burne Jones and William Morris mounted an artistic front against what they saw as the confining standards of the Victorian art world and the dehumanizing aspects of the industrial age Their works drew on Shakespeare Keats Tennyson and medieval lore They also treated religious and contemporary themes with striking realism bringing viewers into intimate contact with the subject and causing scandal in their time In this authoritative yet highly readable volume art historian Aurélie Petiot traces Pre Raphaelitism from its beginnings as a secret brotherhood to its dissemination in multiple strands of British art and beyond Petiot offers keen analyses of Pre Raphaelite painting drawing and decorative art alike She gives particular attention to the role of women in the movement not only as models and muses but as pioneering artists in their own right whose work has only begun to receive its proper recognition Uniquely the last chapters of the book are devoted to the enduring yet often underestimated Pre Raphaelite influence on the later course of modern art and on our contemporary culture More than 300 full color illustrations reproduce all the great Pre Raphaelite masterpieces as well as many fascinating lesser known works with all the luminous brilliance and detail for which the Pre Raphaelites are renowned This splendid volume is a must have for any art history lover

For far too long the male protagonists of the Pre Raphaelite movement have dominated accounts of this revolution in British art. This book aims to redress the balance in showing just how engaged and central women were to the endeavour as the subjects of the images themselves certainly but also in their production. When the Pre Raphaelite Brotherhood the PRB exhibited their first works in 1849 it heralded a revolution in British art. Styling themselves the Young Painters of England this group of young men aimed to overturn stale Victorian artistic conventions and challenge the previous generation with their startling colours and compositions. Think of the images created by William Holman Hunt, John Everett Millais, Dante Gabriel Rossetti and others in their circle however and it is not men but pale faced young women with lustrous tumbling locks that spring to mind gazing soulfully from the picture frame or in dramatic scenes painted in glowing colours. Who were these women? What is known of their lives and their roles in a movement that in successive phases spanned over half a century? Some were models plucked from obscurity to pose for figures in Pre Raphaelite paintings while others were sisters, wives, daughters and friends of the artists. Several were artists themselves with aspirations to match those of the men, sharing the same artistic and social networks yet condemned by their gender to occupy a separate sphere. Others inhabited and sustained a male dominated art world as partners in production, maintaining households and studios and socialising with patrons. Some were skilled in the arts of interior decoration, dressmaking, embroidery, jewellery making, the fine crafts that formed a supportive tier for the higher arts of painting and sculpture. And although their backgrounds and life experiences certainly varied widely, all were engaged in creating Pre Raphaelite art.
