The Assessment Of Early Child Development

Ying-Ying Zheng

The Assessment Of Early Child Development:

Early Childhood Assessment National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Board on Children, Youth, and Families, Committee on Developmental Outcomes and Assessments for Young Children, 2008-12-21 The assessment of young children's development and learning has recently taken on new importance Private and government organizations are developing programs to enhance the school readiness of all young children especially children from economically disadvantaged homes and communities and children with special needs Well planned and effective assessment can inform teaching and program improvement and contribute to better outcomes for children This book affirms that assessments can make crucial contributions to the improvement of children's well being but only if they are well designed implemented effectively developed in the context of systematic planning and are interpreted and used appropriately Otherwise assessment of children and programs can have negative consequences for both The value of assessments therefore requires fundamental attention to their purpose and the design of the larger systems in which they are used Early Childhood Assessment addresses these issues by identifying the important outcomes for children from birth to age 5 and the quality and purposes of different techniques and instruments for developmental assessments

The Assessment of Early Child Development Dorothy Flapan, Peter B. Neubauer, 1975 This assessment aims to make both the learning and teaching of developmental phases easier The book is directed towards students and clinicians and shows what is normal and what is pathological in the development of preschool children *Assessment in Early Childhood Education* Sue Clark Wortham, 2008 A practical guide for assessing young children from infancy through age eight focusing on formal and informal assessment content strategies and examples *Early Child Development from Measurement to Action* Mary E.
