The Aura:

The Aura Sarah A. Schweitzer, 2013-11-14 Life in general continually changes The aura energy field of light which surrounds every living human body is also changing Currently the dense 3rd dimensional aura field of light is being replaced with a new 5th dimensional light frequency As our planet continues to ascend and accept the 5th dimensional frequency and light within her aura field many individuals seeking enlightenment will experience an energy shift as their personal aura also accepts the higher light This shift allows the potential for transformational change to occur not only to our global planet but also in ones personal life In transformation old density threads are unwoven and are moved out of the dense aura energy field both at a global earth level and also at the personal human level This allows negative imprints blocks and emotional drama that were once stuck in density access to the higher energy frequency Although the potential to repeat old issues is ever present in any energy field old imprints cannot anchor correctly in 5th dimensional light which lessens their importance as well as their ability to stabilize Once old density issues are destabilized they become easy to process transition and remove from the aura energy field For many individuals this can feel like heaven on earth This book presents information that defines and explains the aura field of light that surrounds the human body When working to transition the density of a 3rd dimensional energy aura into a 5th dimensional frequency of light this information is necessary to know and understand As energy shifts and transitions occur insight is gained about blocks issues and negativity that have been present in density This insight triggers transformational clearing within the aura allowing one to experience wellness and empowered living

The Aura T. Arnold, 2009-05-28 With no true identity nor any trace of a family tree a strikingly beautiful young teenage girl by the name of Sara Lightfoot whose physical attributes reflect those of a half blooded native American Indian clings to the only comfort she s ever known That comfort is in the form of a paranormal extra sensory perception She has the ability to visibly see people s intentions Sara s ability reaches far beyond that of a typical sensory perception so much that her friends and family recognize this sense as a gift She can distinguish good intentions from evil intentions To Sara these intentions are not measured facially or verbally but rather by the appearance of alternating colors that surround each person Sara calls these colors auras given that they are as constant as they are specific to each person Though intangible this particular extra sensory perception just might possibly be the first quantifiable paranormal gift ever examined on a scientific scale in that it can be repeated with predictable results The fate of her gift and the destiny of her life come down to a single choice Her dilemma to courageously own up to the full potential of this extraordinary gift or take heed and suppress it is but a conjecture away
