

The Baroque Concerto

Malcolm Boyd

The Baroque Concerto:

The Baroque Concerto Arthur Hutchings, 1979 *The Baroque Concerto* , 1978 **The Scoring of Baroque Concertos** C. R. F. Maunder, 2004 Evidence indicates that the concertos of Vivaldi Bach Haydn etc were performed as chamber music not the full orchestral works commonly assumed The concertos of Vivaldi Bach Handel and their contemporaries are some of the most popular and the most frequently performed pieces of classical music and the assumption has always been they were full orchestral works This book takes issue with this orthodox opinion to argue quite the reverse that contemporaries regarded the concerto as chamber music The author surveys the evidence from surviving printed and manuscript performance material from concerts throughout Europe between 1685 and 1750 the heyday of the concerto demonstrating that concertos were nearly always played one to a part at that time He makes a particularly close study of the scoring of the bass line discussing the question of what instruments were most appropriate and what was used when The late Dr RICHARD MAUNDER was Fellow of Christ s College Cambridge *Bach: The Brandenburg Concertos* Malcolm Boyd, 1993-09-24 The Brandenburg Concertos represent a pinnacle in the history of the Baroque concerto This analysis places the concertos in their historical context investigates their sources traces their origins and discusses the changing traditions of performance **A History of the Concerto** Michael Thomas Roeder, 1994 A History of the Concerto may be read from cover to cover but readers may also use the extensive index to focus on specific concertos and their composers Numerous musical examples illuminate critical points While some readers may want to study the more detailed analyses with scores in hand this is not essential for an understanding of the text **Harvard Dictionary of Music** Willi Apel, 1969 Contains nearly 1000 pages of precise and accessible information on all musical subjects **Vivaldi** Paul Everett, 1996-02-22 The Four Seasons and the rest of the concertos in Op 8 represent Vivaldi s remarkable innovation in the field of the Baroque concerto This detailed guide examines the work s origin and construction in a way that enables the reader to distinguish what is extraordinary about the Seasons and what constitutes the composer s customary method of characterising the solo concerto Drawing on recent research and his own expertise in the appraisal of Vivaldi s manuscripts the author draws interesting and sometimes startling conclusions about the conception of the Seasons the origin of their programme the dating of the concertos and the rationale behind the collection s ritornello form structures and aria like slow movements The significance of Vivaldi s idiosyncratic art is thus revealed in some of the most popular concert music of all time **The Baroque Concerto by A.J.B Hutchings** Arthur Hutchings, 1963 *The Oxford Handbook of the Baroque* John D. Lyons, 2019 Baroque the cultural period extending from the mid sixteenth to the mid eighteenth century created some of the world s most striking monuments music artworks and literature This Handbook goes beyond all existing studies by presenting Baroque not only as a style but also as a global cultural phenomenon arising in response to enormous religious political and technological changes *Mozart's Piano Concertos* Marius Flothuis, 2021-11-22 Mozart s Piano Concertos

especially those composed during the years 1784-91 are still held in high esteem two centuries later by both amateur music lovers and professional musicians. Strangely enough, only very few comprehensive studies exist on this remarkable section of Mozart's output. The present study, first published in German in a slightly abridged form, deals with Mozart's evolution as a composer of piano concertos, sheds light on the connections between the concertos and other fields of creative activity as well as on those with other composers of his time. Finally, attention is paid to problems of performance practice. The author, born in 1914, emeritus professor of Utrecht University and former chairman of the Zentralinstitut für Mozart-Forschung Salzburg, has been involved with the subject of Mozart's concertos for about 60 years.
