Weible, Samuel Workman, 2022-04-28 The increasingly global study of policy processes faces challenges with scholars applying theories in radically different national and cultural contexts Questions frequently arise about how to conduct policy process research comparatively and among this global community of scholars Methods of

the Policy Process is the first book to remedy this situation not by establishing an orthodoxy or imposing upon the policy process community a rigid way of conducting research but instead by allowing the leading researchers in the different theoretical traditions a space to share the means by which they put their research into action This edited volume serves as a companion volume and supplemental guide to the well established Theories of the Policy Process 4th Edition Methods of the Policy Process acknowledges that growth and advancement in the study of the policy process is dependent not merely on conceptual and theoretical development but also on developing and systematizing better methodological approaches to measurement and analysis To maximize student engagement with the material each chapter follows a similar framework introduction of a given theory of the policy process application of that theory including best practices for research design conceptualization major data sources data collection and methodological approaches critical assessment future directions and often online resources including datasets survey instruments and interview and coding protocols While the structure and focus of each chapter varies slightly according to the theoretical tradition being discussed each chapter s central aim is to prepare readers to confidently undertake common methodological strategies themselves Methods of the Policy Process is especially beneficial to people new to the field including students enrolled in policy process courses as well as those without access to formal training For scholars experienced in applying theories this edited volume is a helpful reference to clarify best practices in research methods      Theories of the Policy Process Paul A. *Morality Policies in Europe* Christoph Knill, 2017-07-05 The regulation of issues like abortion euthanasia gun control same sex unions pornography prostitution drugs or gambling is commonly referred to a special class of so called morality policies The distinctive feature of these policies is that politics are shaped by conflicts over first principle When does life end When does it begin Is gambling drug consumption or prostitution inherently malignant The regulation of these value conflicts entails decisions about right or wrong and hence the validation of a particular set of basic values Yet there is still a remarkable lack of scholarly attention on morality policies in particular with regard to general implications for the study of public policy To stimulate further research in this area this book focuses on different concepts and theories of morality policy change in European countries It is based on a broad and comparative empirical perspective on different morality issues including for instance the regulation of prostitution abortion euthanasia gambling drugs as well as gun controls This book was published as a special issue of the

Journal of European Public Policy      The European Court of Justice and the Policy Process Susanne K. Schmidt, 2018 This book analyses the European Court of Justice's power from a political science perspective. It argues that this power can be assessed through studying the policy implications of there being a supranational constitution that was drafted as an international treaty. An international treaty contains a set of policy goals for future cooperation. Direct effect and supremacy give constitutional status to these policy goals, allowing the Court to develop the Treaty's implications for policymaking at the European and the member state levels. By focusing on the four freedoms of goods, services, persons, and capital, and citizenship rights, the book analyses the implications of case law for policymaking in different case studies. It shows how major EU legislation, for instance the Services and Citizenship Directives, are significantly influenced by case law and how controversial policies such as EU citizens' access to tax-financed social benefits are closely linked to the Court.

**Gun Control Policies in Latin America** Diego Sanjurjo, 2019-05-23 This book analyses the crucial role that guns play in the dynamics of extreme violence engulfing Latin America and the policies that are being implemented to confront it. Gun control is surprisingly not a prominent issue in most countries of the region, but this situation is rapidly changing as proliferation and violence dramatically increase. The book adopts an extended version of John Kingdon's influential Multiple Streams Framework to explore how gun control enters political agendas and why some countries act to end gun violence and others do not. In this effort, the Brazilian Disarmament Statute and the Uruguayan Responsible Firearm Ownership Law serve as in-depth case studies that exhibit the region's heterogeneity and put Kingdon's policy theory to the test. *Gun Control Policies in Latin America* is an essential reading for anyone interested in Latin American security and public policies.

Frameworks of the European Union's Policy Process Nikolaos Zahariadis, 2017-07-05 The book advances the state of the European Union's policy theory by taking stock of seven promising frameworks of the policy process, systematically comparing their limitations and strengths and offering a strategy to develop robust research agendas. Frameworks may constitute competing policy explanations depending on assumptions they make about EU institutional and issue complexity. The frameworks include detailed analyses of multi-level governance, advocacy coalitions, punctuated equilibrium, multiple streams, policy learning, normative power, Europe and constructivism. Besides generating a fertile dialogue that transcends the narrow confines of EU policy contributions, highlights the value of intellectual pluralism, and the need for clear and rigorous explanations of the policy process. This book was published as a special issue of the Journal of European Public Policy.

Great Britain Donley T. Studlar, 2018-02-19 This thoughtful introduction to British politics explores a country undergoing a painful transition as the twenty-first century approaches. Informed throughout by a comparative public policy perspective, it surveys British policy institutions and behavior since World War II.

**Belief and Religion in Barbarian Europe c. 350-700** Marilyn Dunn, 2013-11-28 This ground-breaking study offers a new paradigm for understanding the beliefs and religions of the Goths, Burgundians, Sueves, Franks, and Lombards as they converted from paganism to Christianity between c. 350 and c. 700 CE.

Combining history and theology with approaches drawn from the cognitive science of religion *Belief and Religion in Barbarian Europe* uses both written and archaeological evidence to challenge many older ideas Beginning with a re examination of our knowledge about the deities and rituals of their original religions it goes on to question the assumption that the Germanic peoples were merely passive recipients of Christian doctrine arguing that so called Arianism was first developed as an entry level Christianity for the Goths Focusing on individual ethnic groupings in turn it presents a fresh view of the relationship between religion and politics as their rulers attempted to opt for Catholicism In place of familiar debates about post conversion pagan survivals contemporary texts and legislation are analysed to create an innovative cognitive perspective on the ways in which the Church endeavoured to bring the Christian God into people s thoughts and actions The work also includes a survey of a wide range of written and archaeological evidence contrasting traditional conceptions of death afterlife and funerary ritual with Christian doctrine and practice in these areas and exploring some of the techniques developed by the Church for assuaging popular anxieties about Christian burial and the Christian afterlife Development in the Asia Pacific Jong S.
